

Polyvance Officially Launches the Nitro-Fuzer Touch Professional Plastic Welder

RAINSVILLE, AL, UNITED STATES, February 25, 2025 /EINPresswire.com/ -- Polyvance, the world leader in plastic repair products, is proud to announce the official launch of its latest innovation, the Nitro-Fuzer® Touch featuring Tru-Fuze™ Technology. This state-of-the-art nitrogen plastic welder is now available for purchase and shipment, following its initial announcement in late 2024.

The Nitro-Fuzer Touch is designed to revolutionize plastic welding with its user-friendly features and advanced technology. Key highlights include:

- * **20+ Plastic Presets:** Pre-programmed settings for over twenty of the most common plastic types eliminate the need to determine optimal temperature and flow settings, saving time and ensuring accuracy.
- * **Auto Flow & Temperature Control:** Maintains optimal flow rate and temperature for each plastic type, resulting in high-quality and consistent welds.
- * **Precise Temperature Control:** Allows users to adjust the flow rate without affecting the flow temperature, providing flexibility for various welding applications.
- * **Intuitive Touchscreen Interface:** The easy-to-use touchscreen ensures no guesswork, simplifying the welding process for both novice and experienced users.
- * **Self-Cooling Torch:** Ensures proper cool-down protocol regardless of how the welder is powered off, enhancing safety and extending the tool's lifespan.

Kurt Lammon, CEO of Polyvance, expressed his enthusiasm about the product launch: "The Nitro-Fuzer Touch represents a significant advancement in plastic repair. Our team has worked diligently to develop a welder that combines cutting-edge technology with user-friendly features, ensuring that our customers can achieve the highest quality repairs with ease."

John Pennycuff, Chief Revenue Officer at Polyvance, added:

"We are setting a new standard in the industry. This innovation not only enhances the capabilities of repair professionals but also reinforces Polyvance's commitment to providing top-tier solutions that drive efficiency and profitability for our clients."

The Nitro-Fuzer Touch is available in two models:

* Model 8302: Designed for use with bottled nitrogen gas.

* Model 8303: Includes an onboard nitrogen generator, eliminating the need for bottled gas.

Both models come fully assembled with a heavy-duty cart, an airless welder for smoothing nitrogen welds and repairing thermoset polyurethane plastics, and three organizer boxes of plastic welding rods to get users started immediately.
