

Slim Vegas and Dr. Jon Williams Now Offering the Spatz3 Adjustable Gastric Balloon

Slim Vegas now offers the FDA-approved Spatz3 Intra gastric Balloon, a non-surgical, adjustable solution for better health.

LAS VEGAS, NV, UNITED STATES, February 26, 2025 /EINPresswire.com/ -- [Slim Vegas](#) is pleased to announce that Dr. Jon Williams is now offering the Spatz3 Intra gastric Balloon, an FDA-approved, adjustable gastric balloon designed to help patients achieve effective and sustainable weight loss. This non-surgical procedure provides a new option for individuals struggling with traditional weight loss methods by promoting portion control and long-term lifestyle changes. This advanced treatment enables patients to Lose 15% to 17.7% of their body weight.

"We are very excited to be part of the [Spatz](#) family and bring endobariatric treatments to Las Vegas," said Dr. Jon Williams, Medical Director at Slim Vegas.

The Spatz3 intra gastric balloon is a first-of-its-kind, adjustable weight loss device placed in the stomach through a minimally invasive endoscopic procedure. Under moderate sedation, the balloon is inserted and filled with liquid, expanding to create a feeling of fullness and reduce appetite. The procedure typically takes 10-20 minutes and is performed on an outpatient basis.

“

We are very excited to be part of the Spatz family and bring endobariatric treatments to Las Vegas.”

Dr. Jon Williams, Medical Director at Slim Vegas

Unlike other gastric balloons, Spatz3 features a unique adjustability function, allowing for volume modifications throughout treatment. This feature enhances effectiveness, minimizes discomfort, and supports optimal weight loss outcomes.

Comprehensive Support for Lasting Results:
The balloon remains in place for up to eight months,

during which time patients receive ongoing medical guidance, nutritional counseling, and lifestyle coaching. This comprehensive support system helps patients develop sustainable habits, increasing the likelihood of long-term success long after the balloon is removed.

Ideal Candidates for the Spatz3 Balloon:

The Spatz3 gastric balloon is intended for individuals with a body mass index (BMI) of 30 to 40 who have struggled with weight loss through diet and exercise alone. It is a non-surgical holistic alternative for those seeking an effective solution without the risks associated with invasive procedures.

Patients who undergo the Spatz3 Balloon procedure at Slim Vegas receive:

- A comprehensive consultation with Dr. Williams
- 12 months of nutritional and lifestyle coaching
- Regular follow-ups throughout the treatment period
- Endoscopic balloon insertion and removal
- Post-procedure IV hydration for optimal recovery
- Personalised weight loss planning and progress tracking

Scheduling a Consultation:

Individuals interested in learning more about the Spatz3 Intra gastric Balloon and determining if they are candidates for the procedure can schedule a consultation with Dr. Williams. For more information, contact Slim Vegas at (702) 329-0229 or visit his website:
