on Bloomberg on March 1, 2025, and March 29, 2025, at 5:00 PM EST. This episode, titled "New Frontiers: Highlighting Emerging Technologies", explores the evolving landscape of spine surgery, featuring the visionary work of Dr. Michael Kilburn and the South Carolina Spine Center.

“

Dr. Kilburn’s team merges technology & human skill together in order to push spine surgery forward, proving innovation’s power to enhance lives and solve real-world medical challenges.”

Christian Kelch, Executive Producer at Planet TV Studios

South Carolina Spine Center, based in Greenwood, South Carolina, has been at the forefront of advancing [neurosurgical and cervical spine procedures](#). With Dr. Michael Kilburn leading the charge, the center has become synonymous with precision, expertise, and a patient-first approach. Dr. Kilburn’s work in artificial disc replacement and minimally invasive surgical techniques is not just refining procedures—it’s transforming patient outcomes and expanding treatment possibilities for those suffering from complex spinal conditions.

This episode of New Frontiers takes an in-depth look at the

science and dedication behind these medical breakthroughs. Viewers will gain a deeper understanding of how Dr. Kilburn and the South Carolina Spine Center are working to enhance patient mobility, reduce recovery times, and elevate the standards of neurosurgical care.

Gina Grad Returns as Host

Adding to the episode's impact, Planet TV Studios is pleased to welcome back Gina Grad as host. Known for her engaging style and deep storytelling abilities, Gina has built a reputation as a compelling media personality, author, and podcast host. Best recognized for her role on The Adam Carolla Show and her acclaimed children's book about [blended families](#), My Extra Mom, she brings an insightful and relatable perspective to the program. Her ability to connect with both audiences and featured experts ensures that New Frontiers remains a captivating and thought-provoking series.

About Planet TV Studios

Planet TV Studios continues to produce compelling programming that shines a light on industry leaders, visionaries, and innovators. Through New Frontiers, the company delivers in-depth stories that inform and inspire, introducing audiences to the professionals shaping the future of their respective fields.

Don't miss this compelling look into the next chapter of spinal surgery and patient care. Tune in to New Frontiers on March 1st and March 29th, 2025, at 5:00 PM EST on Bloomberg.
