advancements in their risk and compliance programs."

Robert Kennedy, National CEO at Synergy Group said, "This partnership is essential to address challenges that government departments and agencies face in managing cybersecurity, risk, and compliance. 6clicks is a comprehensive platform with an IRAP-assessed instance and unique [Hub & Spoke architecture](#) that is perfectly suited for our government clients."

Key benefits of the 6clicks and Synergy Group alliance include:

- 1) Access to industry-leading Australian public sector expertise: Customers benefit from direct collaboration with Synergy Group's top experts, who provide tailored services for key process implementation, change management initiatives, platform configuration, and ongoing support. This partnership ensures swift and effective adaptation to evolving compliance requirements, frameworks, and risk management demands.
- 2) Cost-effective and robust GRC platform: The 6clicks platform leverages advanced automation and artificial intelligence to simplify security compliance, audit readiness, control testing, and risk management. This enables organizations to build resilient GRC programs, streamline audit processes, and optimize time and resources.
- 3) Flexible hosting and deployment options: In collaboration with Synergy Group, Australian government customers have the flexibility to deploy 6clicks' IRAP-assessed instance located in Canberra or a private hosting environment on Microsoft Azure. Additionally, the platform allows for extensive customization and templating of content and configurations to suit specific organizational and regional requirements.

Synergy Group's decision to partner with 6clicks underscores the platform's ability to provide a turnkey solution for government departments and agencies while also supporting the scale and growth of Synergy Group's national advisory and managed services business.
