

Mobile Imaging Services Market 2024-2034 CAGR 5.2%

Market size in 2024 is 18.1 billion USD, projected to reach 30.0 billion USD by 2034, growing at a CAGR of 5.2%.

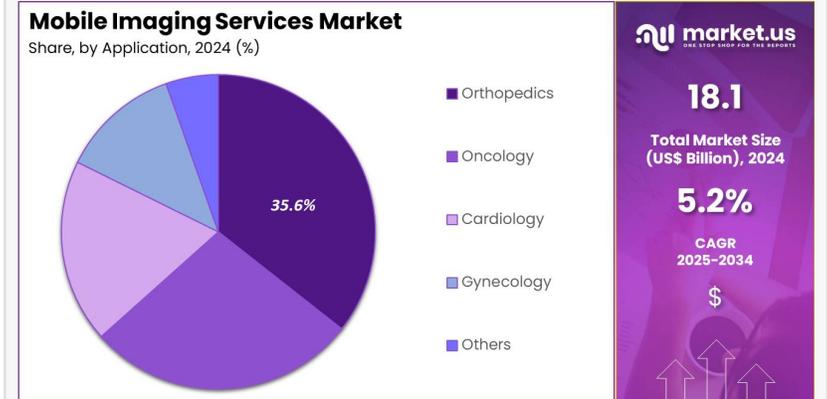

TOKYO, TOKYO, JAPAN, February 26, 2025 /EINPresswire.com/ -- <https://www.einpresswire.com/news/2025/02/26/mobile-imaging-services-market-2024-2034-cagr-5.2%/>

The mobile imaging services market is projected to grow from 18.1 billion USD in 2024 to 30.0 billion USD by 2034, with a CAGR of 5.2%. This growth is driven by the increasing prevalence of chronic diseases, the aging population, and the rising demand for portable and point-of-care imaging solutions. The market is segmented by product type (X-ray, MRI, CT, Ultrasound, and Others) and application (Orthopedics, Oncology, Cardiology, Gynecology, and Others).

Key factors driving the market include the growing adoption of mobile imaging devices in hospitals, clinics, and home care settings. The integration of artificial intelligence (AI) and machine learning (ML) into imaging software is also expected to boost market growth. The market is highly competitive, with major players including GE Healthcare, Philips, and Siemens.

Market size in 2024 is 18.1 billion USD, projected to reach 30.0 billion USD by 2034, growing at a CAGR of 5.2%.
