

Erie, Pennsylvania NBC, CBS & CW Affiliates Profile Jonathan Sutter in TV Coverage Entitled 'Hero of the Day'

The Extensive Work of TravelingWiki in Pennsylvania is Documented as Part of WICU (NBC) and WSEE (CBS & CW) Coverage Including TV Interviews from Super Bowl LIX

ERIE, PA, UNITED STATES, February 26, 2025 /EINPresswire.com/ --

Surrounding engagement at the NFL Combine (2025) and engagement on social media by a world leader in recruiting (scouting), on February 25, 2025, Erie's WICU (NBC News) & WSEE (CBS & CW) profiled TravelingWiki Foundation CEO, Jonathan Sutter, in its "Hero of the Day" segment, including TV interview coverage from Super Bowl LIX.

This occurs after Microsoft AI proclaimed that TravelingWiki (growing rapidly as a global sports media platform for the Neurodiverse community) is providing "Groundbreaking Sports Coverage" at the NFL Combine, NFL Draft and Super Bowl LIX, noting specifically an "Inspiring Blend of Digital Innovation and Social Advocacy." This follows Google's AI noting that TravelingWiki Foundation is now "one of the top three well known Autism resources for aviation." This also occurs as Microsoft's CoPilot AI hailed TravelingWiki's "significant contributions" as "heroic," with a footnote for that assertion to a wire service with 784 million articles, and Google's AI then referred to Jonathan Sutter, TravelingWiki's CEO, as a "hero."

The above referenced assertion arises as TravelingWiki engaged on Special Needs and/or Disability Resources During Engagement at The Superdome surrounding Super Bowl LIX with The Department of Homeland Security Agent in Charge for Super Bowl LIX; TravelingWiki serves as the sole resource for 20M individuals with Non Visible Disabilities via TSA.com, under the purview of the Department of Homeland Security. Earlier on February 8, 2025, for the first time in its existence, TravelingWiki appeared in the Top 6 Global Stories on Google as to Super Bowl LIX.

On February 8, 2025, TravelingWiki engaged NFL titans Kellen Winslow Sr., Bryce Young, Eli Manning, among others.

All of these activities surround recent landmarks for TravelingWiki. Microsoft's CoPilot AI recently hailed TravelingWiki as "one of the Fastest-Growing Resources for Autism-Friendly Airport Information" Globally. This is contemporaneous with a surge of interest in Asia, with various Asia-based searches focused on travel in the US resulting in TravelingWiki Foundation being the top result for organic and/or AI based search. Specifically, as of February 6, 2025, TravelingWiki is now the top organic and AI search result for some Autism searches on Baidu (China) & Naver (South Korea).

The rapid growth surrounded engagement at Super Bowl LIX festivities on February 5, 2025 with Eric Ellenberger, Alumni Manager at Wounded Warrior Project, discussing the service of so many and TravelingWiki's goal to expand services for those with PTSD during their air travel.

TravelingWiki had previously engaged Global Affairs Deputy Director, Wounded Warrior Project, Aleks Morosky. TravelingWiki Foundation's CEO, Jonathan Sutter, also spent time with NFL Star Michael Pittman Jr., discussing his charitable work supporting children, including to support those suffering from bullying, and the work of TravelingWiki to augment access to air travel for travelers of all ages.

The work this week arises after both Crunchbase and ZoomInfo have leveraged TravelingWiki's resources for profiles of organizations. Microsoft Bing highlighted TravelingWiki as one of the most "Recognized Brands and Resources" in its space as to Autism Travel & beyond, specifically also referencing "Fights for Children With Autism." This also occurs as TravelingWiki launched its Experiential Learning Program the past few weeks in partnership with The Drake University College of Pharmacy & Health Sciences, including a presentation at Iowa State University. The past few weeks also included interviewing for the 2026 Experiential Learning Program at Drake University. This is the second time in a matter of months that TravelingWiki Foundation has traveled to Ames, Iowa to present to Generation Z on these resources.

Part of the impetus of TravelingWiki's rapid growth initiatives, engaging directly with the next generation of the workforce, is the opening of experts on Neurodiversity at CES that 53% of GenZ identifies as Neurodiverse. This also follows TravelingWiki Foundation announcing an expansion of its Library Program, growing in earnest this past week in Iowa (whereby TravelingWiki's Experiential Learning participant(s) present(ed) at an Iowa library), growing from a foundation of offering TravelingWiki resources in one or more Iowa library databases alongside some of the most well-known global charities. In addition, this follows a definitive assertion by AI-based technology associated with Google about TravelingWiki's impact in the travel industry in terms of resource documentation. In that case, Google's AI described TravelingWiki's "Significant Impact"

as to (1) Increasing Travel Industry Spending, Tourism & Jobs; (2) Special Needs Documentation; (3) Partnerships & (4) Engagement.

The work of TravelingWiki Foundation to document resources for Non Visible Disabilities at US airports, now exceeding 40 airports documented, stems back to the start of TravelingWiki Foundation. TravelingWiki Foundation's non-profit work across the US expands upon prior work in Pennsylvania, including the recent addition of TravelingWiki Foundation's free resources in 12 languages to the Philadelphia Autism Project, in cooperation with Drexel University; and presenting at PNC Park with the Pittsburgh Pirates on June 22, 2024 and August 4, 2024 to promote Autism awareness and Special Needs awareness, respectively, via themed baseball games (coordinated via many organizations throughout Pennsylvania) that also raised money for local area charities.

The CEO of TravelingWiki Foundation, Jonathan Sutter, notes, "The profiling of Jonathan Sutter (TravelingWiki CEO) via Global News Coverage is emblematic of a focus of our leadership as to ensuring broad distribution of free resources for 20M Americans w Non Visible Disabilities."
