

TCB Pay Launches API for Issuing Corporate Cards, Revolutionizing Business Expense Management

BOCA RATON, FL, UNITED STATES, February 26, 2025 /EINPresswire.com/ -- [TCB Pay](#), a leader in payment solutions, has introduced its Issuing API, a versatile tool designed for businesses to simplify the issuance and management of corporate cards. By incorporating advanced encryption protocols, flexible user configurations, and comprehensive account control mechanisms, this API transforms how businesses handle expenses and enable their teams to operate more effectively.

[The Issuing API](#) enables effortless integration with existing systems while providing extensive technical capabilities to create, manage, and optimize corporate card programs. With highly customizable features, businesses can now fully control their expense management processes.

TCB Pay issuing API

“

Our Issuing API lets businesses easily issue and manage corporate cards, reaffirming our commitment to developer-friendly expense management solutions.”

Benjamin Haguel, CEO of TCB Pay

Technical Highlights of the Issuing API:

- Platform Integration: Bring TCB Pay’s advanced expense management features, such as card creation, user roles, and real-time analytics, directly into your own platform.
- User Management: Add and manage users with defined roles, assign unique IDs, and configure shipping or billing addresses based on operational needs.
- Card Issuance: Create physical or virtual cards with customizable spending profiles, and billing configurations.
- Real-Time Insights: Generate transaction reports and

monitor card activities with immediate visibility into approvals, declines, and refunds.

- Flexible Spending Controls: Define spending limits, cycles, and transaction caps to align with company policies.

- Developer-Friendly Integration: Sandbox environments and detailed technical documentation for smooth implementation.

Simplifying Corporate Spending

The Issuing API eliminates the complexity of manual processes by enabling automated, data-driven decision-making. Whether managing digital or physical cards, businesses can easily access tools to enhance operational efficiency, reduce errors, and maintain compliance.
