

# Soutron Global Announces the Availability of a Cultural Asset Management System for Museums, Archives & Libraries

SAN DIEGO, CA, UNITED STATES, February 26, 2025 /EINPresswire.com/ -- Soutron Global, an internationally recognized SaaS provider of information management and preservation solutions for archives, libraries, museums and knowledge management hubs announces the immediate availability of CAMS, a [cultural asset management](#) system. Developed by Soutron Global's newly acquired MINISIS Inc, CAMS was designed to streamline collection management. CAMS is an all-in-one, cross-cultural, multi-functional solution for archives, libraries and museums.

Unlike single-discipline library, archives and [museum collection management](#) products, CAMS goes beyond traditional collection management systems by integrating archive, library and

“

CAMS offers a single, powerful solution to manage all aspects of diverse collections, from cataloging and preservation to access and discovery.”

*Tony Saadat, CEO of Soutron Global*

museum cataloging into a single, online, cohesive platform. This advanced solution enhances cataloging workflows, facilitates comprehensive collection management and accessibility, plus offers an optional Trusted Digital Repository (TDR) for long-term preservation.

"CAMS represents a significant advancement in cultural asset management," said Christopher Burcsik, of the MINISIS group at Soutron Global. "For too long, organizations have struggled with fragmented systems and

content silos. They can now manage diverse cultural assets with greater efficiency while ensuring their historical and informational integrity in a fully online experience.”

## Key Features and Benefits of CAMS:

- **Unified Platform:** Combines archives, library and museum functionalities in one system.
- **Improved Accessibility:** Eliminates information silos and provides a single search interface for all collections.
- **Cross-Cultural, Cross-Asset Solution:** Manages diverse collections and supports international standards (AACR2, MARC/RDA, ISAD(G), ISAAR, Dublin Core, and more).
- **Robust Functionality:** Includes OPAC/Portal union collection searching, cataloging, acquisitions, serials management, circulation, loans, reproduction services, education, object tracking, exhibition management, conservation, enquiries, geographic sites, event management and so much more.
- **Streamlined Workflows:** Simplifies cataloging, accessioning, circulation and other key processes for almost any type of institution small or large.
- **Enhanced Preservation:** Offers MINISIS TDR, an optional Trusted Data Repository for digital preservation and authentication.
- **Flexible and Functional:** Customizable to meet the specific needs of each organization.
- **SaaS Delivery:** Reliable and secure cloud-based access with no hidden costs.

“CAMS offers a single, powerful solution to manage all aspects of diverse collections, from cataloging and preservation to access and discovery,” states Tony Saadat, CEO of Soutron Global. “Built on proven MINISIS technologies used in thousands of organizations worldwide, CAMS makes cataloging easy for [libraries, archives and museums](#) alike, providing the world a complete, standards-based, certified software solution.”
