BluLogix, a leader in intelligent subscription [billing](#) and [revenue](#)

management solutions, announces the launch of BluIQ's Margin Analyzer, a powerful new tool designed to provide organizations with unparalleled visibility into cost structures, customer profitability, and margin optimization.

“

Profitability isn't just revenue—it's knowing every cost, margin, and opportunity. BluIQ's Margin Analyzer gives businesses real-time insights to drive smarter financial decisions.”

*Youssef Yaghmour, CEO  
BluLogix*

Margin Analyzer helps businesses make smarter, data-driven financial decisions by enabling precise cost tracking at the product, service, invoice, and customer level. This revolutionary solution allows enterprises to refine their pricing strategies, enhance customer value management, and drive profitability across multiple billing entities and financial cycles.

Driving Profitability at Every Level

As businesses face increasing complexity in pricing, cost allocation, and revenue optimization, BluIQ's Margin

Analyzer provides a much-needed solution to navigate financial challenges with real-time margin intelligence.

With BluIQ's Margin Analyzer, businesses gain the intelligence they need to make smarter, data-driven financial decisions in real time.

Key capabilities include:

□ In-Depth Price and Cost Analysis – Capture and reconcile price and cost data inclusive of discounts, rebates and returns at the product, service, or invoice level to fine-tune pricing strategies and eliminate revenue leakage.

□ Customer Profitability Insights – Segment customers based on profitability metrics to enhance customer lifetime value, sales targeting, and retention strategies.

□ Invoice & Period-Level Financial Analysis – Monitor financial cycles, uncover trends, and optimize cash flow by identifying profitable patterns in billing, seasonal trends, and invoice performance.

□ Enterprise Margin Optimization – Consolidate financial data across multiple billing entities and business units, ensuring a unified strategy for profitability growth.

□ Real-Time Margin Adjustments – React dynamically to cost fluctuations, volume changes, and supplier negotiations to maintain competitive margins and maximize revenue potential.

### A Game-Changer for Complex Billing & Revenue Models

For businesses operating in industries with dynamic pricing models, subscription-based services, and complex cost structures, BluLogix's Margin Analyzer serves as a critical intelligence tool. By offering a holistic view of financial performance, businesses can confidently adjust pricing, enhance profitability, and streamline financial planning.

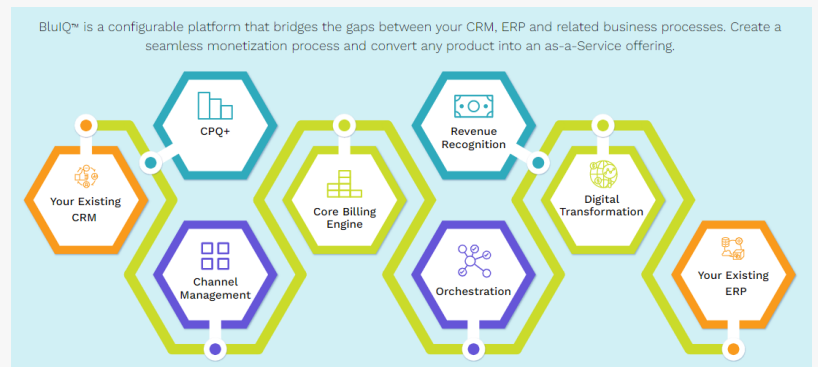

"Margin visibility is a major challenge for businesses operating in dynamic markets," said Youssef Yaghmour, CEO of BluLogix. "With BluLogix's Margin Analyzer, companies can finally gain the real-time insights they need to manage pricing strategies effectively, improve customer segmentation, and optimize financial performance with precision."

### Why Now? Addressing the Need for Financial Agility

With rising market uncertainties, changing customer demands, and increasing margin pressures, businesses must have the ability to adapt their pricing and revenue models in real-time. BluLogix's Margin Analyzer ensures financial teams, revenue managers, and business leaders have the intelligence to:
