For all who strive to understand and elevate themselves, this book has been a guiding light, a master key to inner peace, and a testament to human greatness." — Malik Books

The word Dianetics is derived from the Greek word dia, meaning "through," and nous, "mind or soul." Dianetics is further defined as "what the soul is doing to the body." After years of research among 21 different races and cultures, L. Ron Hubbard published his perennial bestseller Dianetics: The Modern Science of Mental Health. It became an immediate New York Times bestseller for weeks on end, and has since appeared over 3,400 times on various bestseller lists.
