YORBA LINDA, CA, UNITED STATES, February 27, 2025 /EINPresswire.com/ -- Author Xiomara Rodriguez uncovers her latest riveting collection, "[The Jane Sparks Trilogy](#)." The trilogy brings together three action-packed novels that follow twin sisters, San Francisco Police Department Lieutenant Jane Sparks and FBI Senior Special Agent Fran Morris, as they tackle crime, unravel mysteries, and experience personal transformation.

The Jane Sparks Trilogy

In "How Could It Be?", the first installment of the series, Jane faces an unexpected twist when she uncovers that the wounded agent in the precinct's parking lot, Senior Agent Fran Morris, is her identical twin—a sister she never knew was out there. After an awkward and confrontational hospital meeting during Agent Morris's recovery, the two join forces. With their sharp investigative skills, they set out to uncover the mastermind behind the attack and, even more intriguingly, the mystery of their separation at birth.

In its follow-up, "And the Story Continues," Jane and Fran face challenges as they explore the perilous and shadowy realm of horse racing. The high-stakes arena thrusts them into a criminal underworld dominated by deception and greed. Their quest for justice drives them to face formidable foes, strengthening their connection as sisters and allies in law enforcement. The trilogy wraps up with "New Beginning Maybe?" as the sisters tackle their toughest case yet—an elaborate investigation into stolen art and antiquities. In their pursuit of elusive crooks, the sisters encounter unforeseen detours that may take them in different directions. Their investigative abilities are tested as they must confront their own personal journeys and negotiate

a convoluted web of deceit.
