

Green Edge Systems Unveils Checkmark School Menu Boards to Boost Healthy Eating & Improve Food Service Efficiency

Innovative LED Flashing and Dry Erase School Menu Boards Enhance USDA Compliance, Streamline Cafeteria Operations, and Reduce Food Waste

WOODLAND HILLS, CA, UNITED STATES, February 28, 2025 /EINPresswire.com/ -- Green Edge Systems, a leader in innovative school menu board solutions, is proud to introduce its latest advancement in menu display technology: [LED Flashing](#) and [Dry Erase Checkmark School Menu Boards](#). Designed to enhance USDA compliance, encourage healthier eating habits, and streamline food service operations, these front-of-line and wall-mounted school menu boards make nutritious choices more visible and accessible to students while providing food service teams with valuable insights to improve efficiency and reduce waste.

* How Checkmark Boards Enhance Food Service Operations:

Green Edge Systems' [Checkmark Menu Boards](#) are more than just displays—they are a powerful tool for improving food service planning and efficiency. By utilizing a simple checkmark system, schools can highlight Smart Picks, track food trends, and optimize meal planning in real-time.

□ Predicting Demand More Accurately – Helps food services anticipate popular items and adjust portion sizes accordingly, reducing guesswork.

□ Reducing Food Waste – Analyzing selection trends allows teams to minimize overproduction and avoid unnecessary waste, making operations more sustainable.

□ Optimizing Inventory Management – Ensures that high-demand ingredients are stocked properly, preventing shortages and excess stock.

□ Improving Cost Efficiency – Schools can focus resources on the most chosen items, cutting costs on less popular menu options and reducing food loss.

□ Adjusting Menus Based on Data – Tracking checkmarked items over time helps food service directors refine menu offerings based on real student preferences.

□ Encouraging Healthier Choices – A clear, easy-to-understand checkmark system highlights nutritious foods, guiding students toward better meal selections.

□ Reducing Decision Time – Visual cues allow students to quickly recognize healthy choices, leading to faster-moving lines and improved cafeteria flow.

□ Increasing Sales of Nutritious Foods – By making healthier foods stand out, schools may see higher meal participation rates, ensuring students eat well.

“

Our Checkmark Menu Boards empower schools to highlight healthier choices, cut waste, and streamline food service—all while making USDA compliance easier.”

Tommy Orpaz, CEO of Green Edge Systems

□ Supporting Marketing & Education Efforts – The Checkmark system reinforces nutrition education, making school cafeterias an extension of the classroom.

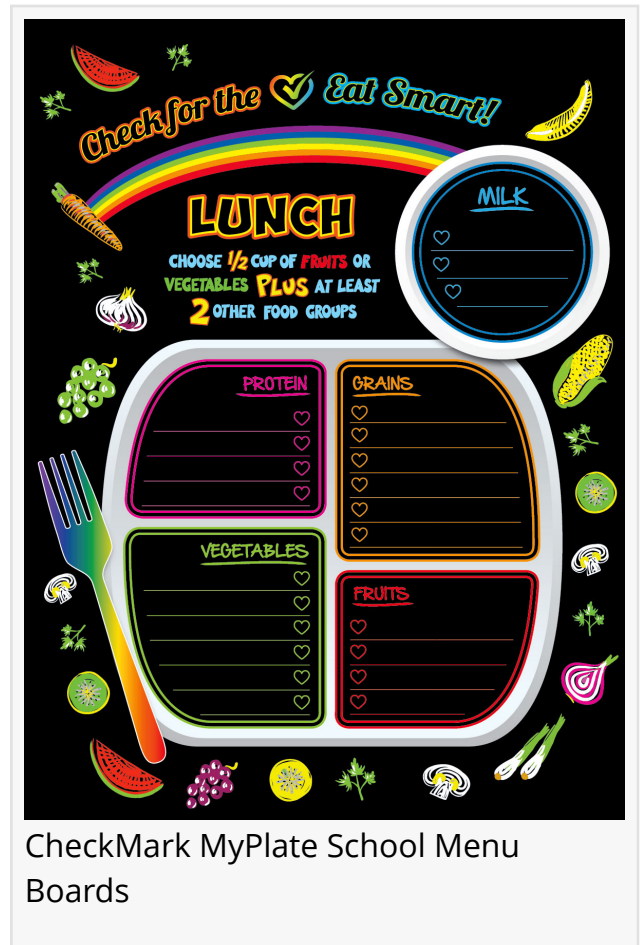

□ More Efficiency, Less Food Waste = Saving Money! – Smarter menu planning leads to lower costs, improved operations, and a more sustainable school meal program.

* Revolutionizing School Cafeterias with Checkmark Boards:-

Beyond enhancing food service efficiency, Checkmark

Menu Boards are designed to help schools meet USDA nutrition guidelines with ease.

"Our Checkmark Menu Boards are more than just displays—they're a tool for food service teams to make meal selection easier, reduce waste, and optimize inventory management," said Tommy Orpaz, CEO of Green Edge Systems. "Schools now have a flexible, high-impact way to promote

healthier eating while making food service operations smoother and more efficient."

With wall-mounted and front-of-line stand options, Checkmark Menu Boards help students make informed decisions before reaching the serving area, reinforcing Offer Versus Serve (OVS) policies and MyPlate guidelines.

□ Boosts USDA Compliance & MyPlate Education – Organizes meals by food group, helping students meet meal requirements while making healthier choices.

□ Maximizes Visibility with Wall-Mounted & Front-of-Line Placement – Ensures students see their choices early, leading to quicker decisions and a more efficient serving process.

□ Flexible for Any School Program – Available as LED Flashing Boards for attention-grabbing displays or Dry Erase Boards for easy updates and customization.

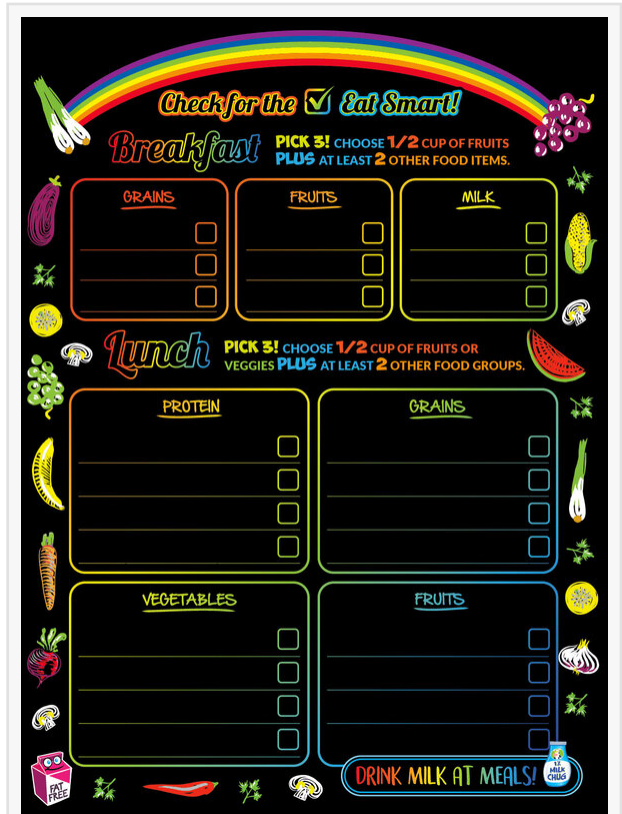

* Bringing Innovation to School Nutrition:-

With installations in thousands of schools nationwide, Green Edge Systems continues to provide practical, results-driven solutions for school food service directors. The Checkmark Menu Boards are the latest addition to the company's lineup of LED Flashing and Dry Erase school menu board innovations, designed to transform school cafeterias into nutrition-focused learning environments.

"We're committed to giving schools the tools they need to create a better dining experience for students while improving food service efficiency," added Orpaz. "With Checkmark Menu Boards, schools can make USDA compliance simpler, encourage better food choices, and reduce waste—all in one solution."

* About Green Edge Systems:-

Green Edge Systems is a leading provider of LED Flashing and Dry Erase Menu Boards for school nutrition programs, with a focus on improving food service visibility, efficiency, and student engagement. With thousands of installations across the U.S., Green Edge Systems helps schools implement innovative solutions that make healthy eating more accessible and appealing.
