BEIRUT, LEBANON, February 28, 2025 /EINPresswire.com/ -- [Lebanon's GDP Growth Projections for 2024](#) - The International Monetary Fund (IMF) has released its latest estimates for Lebanon's economic performance in 2024. According to the report, Lebanon's GDP is projected to grow by 0.5% in 2024, following a contraction of 1.5% in 2023. This projection is based on the current economic conditions and the government's policies. The IMF also notes that Lebanon's economic recovery remains fragile, and the country faces significant challenges, including high inflation and a large external debt. The report highlights the need for continued reforms and international support to stabilize the economy and promote sustainable growth.

The IMF report states that Lebanon's GDP growth in 2024 is expected to be 0.5%, down from 1.5% in 2023. This is due to the continued impact of the economic crisis and the high inflation rate.
