Definition:

Therapy Notes Software is a cloud-based mental/behavioural health software solution with electronic health records (EHR), a patient portal, patient scheduling, and medical billing capabilities. The system is appropriate for practises of all sizes, including those with numerous

locations or physicians who require access outside of the office. Therapy Notes offers a variety of speciality note templates for a variety of medical specialties, including psychotherapy, psychiatry, and mental health. Medical practitioners may use Therapy Notes to generate and personalise treatment plans, progress notes, psychiatric assessments, termination notes, and other documents. Higher convenience and growing adoption of digital solutions has led to the growth of the therapy notes software market. North America is the dominant most market of Therapy Notes Software.

Market Drivers:

- AI for Clinical Notes, Telehealth Integration

Market Trends:

- Growth in Teletherapy, Increasing Mental Health Awareness

Challenges:

- Data Privacy Regulations, Adoption by Small Clinics
