

Spirulina Source Releases Reports on the Global Spirulina Microalgae Industry

Highlighting the global scope of spirulina producers and products

RICHMOND, CA, UNITED STATES, March 3, 2025 /EINPresswire.com/ -- [Spirulina](https://www.spirulinasource.com/) is the largest selling [microalgae](https://www.spirulinasource.com/) worldwide today. Spirulina industry and market reports are curated by Spirulina Source has from the largest structured database of 600 spirulina producers and their products.

“The global spirulina market has evolved in surprising ways over the past 40 years”, says Robert Henrikson, founder of Spirulina Source and [algae](https://www.spirulinasource.com/) industry pioneer since the 1970s.

“About 50 medium and large farms dominate production of spirulina powder and phycocyanin. Large Chinese farms produce over 70% of the world supply, about 75% is for the Chinese market, and 25% exported. Small enterprises have proliferated around the world and drive product innovation. More than 550 small micro producers sell their dried, fresh and frozen spirulina in supplements, foods and beverages in local and regional markets. 150 are in France alone.”

Industry reports are organized by 10 regions, each with history and overview, Illustrated with photos of companies, business activity and products: Europe • France • Africa • Mid East • India • Southeast Asia • China • Asia Pacific & Oceania • North America • Latin America.

Objectives:

- Bring awareness of the scope of the global spirulina industry.
- Enhance connections among producers for best practices and products.
- Provide investment landscape for investors and investments.
