

A' 3D Printed Forms and Products Design Award Announces Comprehensive Prize Package for 2024

Global Recognition Program Reveals Extensive Benefits Package Including Exhibition, Publication, and PR Services for 3D Printing Innovation

COMO, CO, ITALY, March 1, 2025

[/EINPresswire.com/](https://www.einpresswire.com/) -- The A' 3D Printed

Forms and Products [Design Award](#) has

announced its comprehensive prize

package for the 2024-2025 competition

period, offering an extensive array of

benefits designed to recognize and

promote excellence in 3D printing

design. The award program, established in 2008, represents a highly prestigious platform for

designers, manufacturers, and innovators in the 3D printing industry to showcase their

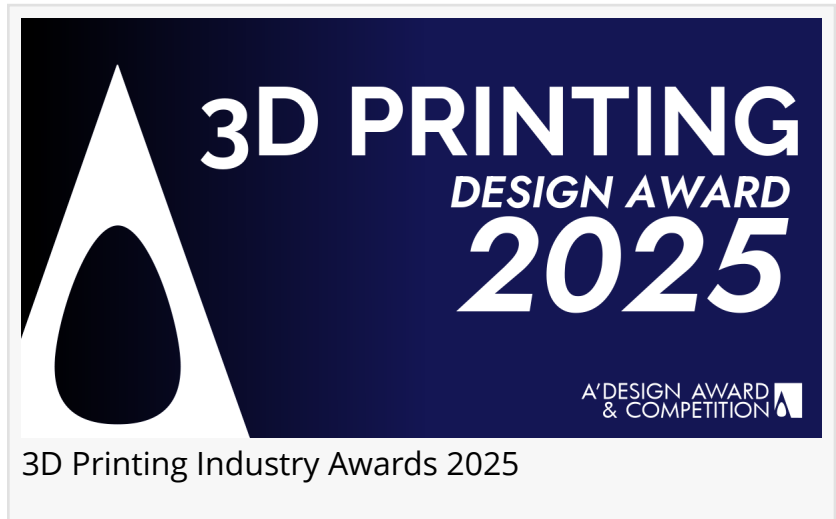

achievements and gain international recognition. This initiative aims to advance the field of 3D

printing through the celebration and promotion of outstanding design accomplishments.

The significance of the A' 3D Printed Forms and Products Design Award extends beyond mere recognition, addressing crucial industry needs for innovation validation and market visibility. The award serves as a catalyst for advancing 3D printing technology and design excellence, providing winners with tools and opportunities to enhance their market position. This recognition program plays a vital role in promoting sustainable and innovative approaches in 3D printing, contributing to the evolution of manufacturing technologies.

The competition welcomes entries from professional designers, manufacturing companies, research institutions, and innovative enterprises worldwide. Categories encompass various aspects of 3D printing, including industrial applications, consumer products, medical devices, and architectural components. Participants may submit their entries until February 28th, 2025, with results announced on May 1st, 2025. The award particularly focuses on designs that demonstrate innovation, sustainability, and practical application in real-world scenarios.

Evaluation of submissions follows a rigorous methodology based on pre-established criteria

3D Printing Industry Awards 2025

including innovation, functionality, and aesthetic qualities. The blind peer-review process involves an international jury panel comprising design professionals, academics, and industry experts who assess each entry anonymously. This systematic approach ensures fair and unbiased evaluation of all submissions, focusing on merit and innovation.

The A' Design Prize package includes the prestigious A' Design Award winner logo license, exhibition opportunities at international venues, inclusion in the hardcover yearbook, and comprehensive PR campaign services. Winners receive global exposure through press releases distributed to international media, participation in the annual winners' exhibition, and inclusion in the World Design Rankings. The prize also features translation services to 100+ languages, ensuring global reach and recognition.

At its core, this award program operates with a philanthropic mission to enhance society through the advancement of 3D printing technology and design. By recognizing and promoting innovative solutions, the program aims to inspire the development of superior products that benefit communities worldwide. This recognition serves as a catalyst for positive change in manufacturing and design practices.

About A' 3D Printed Forms and Products Design Award

The A' 3D Printed Forms and Products Design Award stands as a highly regarded competition within the 3D printing industry, welcoming participation from designers, manufacturers, and innovative enterprises worldwide. The award program operates through a rigorous evaluation process, focusing on recognizing designs that demonstrate excellence in innovation, functionality, and sustainable manufacturing practices. This platform aims to advance the field of 3D printing by highlighting exceptional achievements and fostering international collaboration among industry professionals.

About A' Design Award

A' Design Award represents an international juried [design competition](#) established in 2008, dedicated to recognizing excellence across multiple design disciplines. Operating with a philanthropic mission, the competition aims to advance society through the promotion of good design practices. The program utilizes a comprehensive evaluation methodology, ensuring fair assessment through blind peer-review processes. Through its various initiatives, A' Design Award contributes to creating a better world by motivating designers and brands to develop superior products that benefit society.
