

Ravana X Unveils New Features to Empower Financial Independence and Promote Mental Health Advocacy

Entrepreneur and Mental Health Advocate Nisala Daksitha Premaratna (නිසලා ධක්සිතා) Shares His Journey of Innovation, Compassion, and Advocacy.

LOS ANGELES, CA, UNITED STATES, March 4, 2025 /EINPresswire.com/ -- [Ravana X](#), a blockchain-

“

We've created problems with greed, hate, and delusion. To solve them, as Einstein said, we need new thinking—perhaps with kindness, love, compassion, joy, equanimity, and enlightenment!”

Nisala Daksitha Premaratna

based platform founded by Sri Lankan-American entrepreneur and mental health advocate [Nisala](#), has announced the launch of new features aimed at enhancing financial independence and supporting mental well-being. The platform, known for combining decentralized finance (DeFi) with private social media interactions, now offers a rideshare and space-sharing marketplace within the Ravana X Universe in the future.

The new features enable users to earn Gems—digital rewards that can be converted to Ravana tokens—by providing services such as ridesharing and renting spaces.

These developments complement the platform’s multi-chain wallet, marketplace (Ravana X Market), and referral system, which already reward community engagement and social interactions.

"Our goal is to build a community where members can thrive both financially and emotionally," said Nisala, Founder of Ravana X. "These new features align with our vision to create a decentralized ecosystem that offers real-world benefits while fostering a supportive environment for mental health."

Innovative Technology with a Human-Centered Approach

Ravana X continues to prioritize user engagement and community support through its unique governance model, allowing members to participate in key decision-making processes. This shift towards decentralized governance empowers users to shape the platform's evolution, ensuring it meets the needs of its growing community.

In addition to financial tools, Ravana X promotes mental health awareness through daily wellness tips and community-driven initiatives. This approach is an extension of Nisala's broader advocacy work through [Inspire Compassion](#) Inc., a nonprofit organization dedicated to reducing stigma around mental health and providing empathy-driven programs.

Nisala's Personal Advocacy and Vision

Nisala's dedication to mental health advocacy is rooted in his own experiences. Diagnosed with unspecified psychosis versus bipolar 1 disorder, he has faced significant challenges, including hospitalizations in Sri Lanka and Los Angeles. His journey through mental health recovery and acceptance of treatment has become a cornerstone of his advocacy efforts.

"I believe in the power of speaking openly about mental health," said Nisala. "We need more voices breaking the stigma, encouraging those who are struggling to reach out and get the help they need."

Through his book, *Darkness to Light*, co-authored with ChatGPT, Nisala shares his personal story alongside philosophical insights, offering readers a guide to finding light through mindfulness and compassion.

Future Plans for Ravana X and Inspire Compassion

Looking ahead, Ravana X plans to expand its ecosystem by partnering with manufacturers to offer discounted products and services to its members. The platform will also integrate educational resources focused on financial literacy, mental health, and community engagement.

Inspire Compassion Inc. will continue to collaborate with other organizations, scaling its initiatives to promote kindness and support mental well-being in underserved communities. The nonprofit, which can be found at InspireCompassion.org, offers programs that reduce stigma around mental health and foster open, compassionate conversations about well-being.

"Our vision is to merge technology with humanity," added Nisala. "We strive to create a lasting positive impact, whether through blockchain innovation or mental health advocacy."
