

# Fasoo Introduces Safe, Smart, and Specialized Private Enterprise LLM: Maximizing Efficiency with Robust Security

BETHESDA, MD, UNITED STATES, March 4, 2025 /EINPresswire.com/ -- [Fasoo](#), the leader in data security, privacy, and AI-ready data management, today announced the launch of [Ellm, a private GenAI solution](#) built with enterprise-grade security.

Ellm is a small LLM designed to train AI for organization-specific use cases and needs while mitigating data security risks.

“With our enterprise LLM, businesses no longer have to choose between security and performance,” stated [Ron Arden, Executive Vice President, CTO](#), and COO at Fasoo. “We provide a robust AI solution that seamlessly integrates into your infrastructure while safeguarding your most critical data.”

Ellm is designed to help enterprises harness the power of AI while maintaining full control over their data. Its lightweight yet powerful model optimizes resource efficiency, reducing operational costs without compromising performance. With its robust security features and scalable architecture, Ellm empowers organizations to take full advantage of AI technologies, all while maintaining stringent security and compliance standards.

Other key features of Ellm include:

- **Seamless Enterprise Integration:** Ellm effortlessly integrates with security systems, supporting detailed access control policies and metadata information to ensure a secure AI experience.
- **Domain-Specific Fine-Tuning:** Ellm delivers precise, industry-specific customization by fine-tuning with internal knowledge bases. This ensures highly accurate, relevant responses tailored to each enterprise use case.
- **Streamlined Workflow:** Ellm automates tasks such as content generation, document summarization, internal data analysis, and information management, enhancing efficiency and

reducing manual workload.
