Report Coverage & Details:

Report Coverage Details

Forecast Period 2022–2031

Base Year 2021

Market Size in 2021 \$1.3 Billion

Market Size in 2031 \$2.1 Billion

CAGR 4.7%

No. of Pages in Report 257

Segments Covered Product Type and Region.

Drivers Rise in prices of bicycles

The fact that growing awareness about the health benefits of cycling has made cycle owners become more conscious of bicycle cleaning, frequent lubrication, polishing, and other bicycle maintenance activities.

Restraints Certain health risks associated with the use of solvents, such as alcohol ethoxylates, iminodisuccinic acid tetrasodium salt, and others that are further used in producing various bicycle maintenance products

Less awareness about using the products in the underdeveloped countries

Opportunities Growing inclination toward electric bicycles among individuals

Covid-19 Scenario-

The outbreak of the pandemic gave way to huge disruptions in the supply chain, thus impacting the global bicycle maintenance products market negatively, especially during the initial period. However, as the global situation was back on track, the market also started gaining traction slowly and steadily.

The global bicycle maintenance products market is analyzed across product type and region. The report takes in an exhaustive analysis of the segments and their sub-segments with the help of tabular and graphical representation. Investors and market players can benefit from the breakdown and devise stratagems based on the highest revenue-generating and fastest-growing segments stated in the report.
