

# SpecFive Launches Trace: Subscription-Free GPS Tracker for Response Teams and K9 Operators

AUSTIN, TX, UNITED STATES, March 3, 2025 /EINPresswire.com/ -- [SpecFive](#) today announced the launch of Trace, a rugged, GPS tracking device designed for both team coordination and dog tracking. Leveraging LoRa mesh radio technology, Trace delivers reliable tracking without relying on cellular networks—ensuring seamless connectivity over miles, in even the most remote environments.

Key Features of the [S5 Trace](#)  
Real-Time GPS Tracking: Updates location every 30 seconds with an accuracy of 20–40 feet depending on GPS lock.

LoRa Mesh Network Advantage:  
Operates independently of cellular service, ensuring coverage even in remote locations.

No dead zones: Can function in mountainous terrain, dense forests, and off-grid areas.

Scalable coverage: Each device in the network acts as a relay, extending range and reliability. Optional SpecFive Relays can be added to your environment to extend tracking range significantly.

-No monthly fees: A one-time purchase with no hidden costs.

-Enhanced privacy: No reliance on third-party networks, no “middle man,” and no Big Tech eavesdropping.

-Durable & Weatherproof: Built to withstand rain, mud, and rugged outdoor conditions.

SpecFive Trace

- Long-Lasting Battery Life: 8–10 hours of operation on a single charge.
- Multiple Mounting Options:
  - Dog Collar Mount: Designed for canine tracking, supporting up to 30mm-wide collars.
  - MOLLE Mount: Ideal for tactical and field applications.

### Designed for Critical Applications
