

Vertex Wireless Opens Secondary Distribution Center to Meet Growing Demand for Technology Solutions & 3PL Services

Vertex Wireless opens a second distribution center to expand inventory, enhance logistics, and improve fulfillment for mobility, IoT, and enterprise solutions.

WEST CHICAGO, IL, UNITED STATES, March 3, 2025 /EINPresswire.com/ -- Vertex Wireless, a [premier technology distributor](#) and 3PL (third-party logistics) technology logistics provider specializing in mobility products and related services / solutions, announces the opening of a second distribution center to support its expanding inventory and logistics services. This strategic expansion boosts the company's ability to stock more technology, smartphones, tablets, routers, IoT, and enterprise mobility devices while enhancing order fulfillment, White-Glove services, and supply chain efficiency.

Vertex Wireless Expands with New Distribution Center to Meet Growing Demand

Increased Warehouse Capacity for Faster Wireless Device Fulfillment

Centrally located in Northern Illinois, the new distribution center facility strengthens Vertex Wireless' position as a leading mobile technology distributor, ensuring:

- More in-stock wireless devices – Faster availability of the latest 5G smartphones, tablets, and connected devices.
- [Enhanced 3PL services](#) – Comprehensive warehousing, order fulfillment, and direct-to-user shipping for carriers, resellers, and enterprise clients.
- [Expanded White-Glove solutions](#) – Custom device kitting, staging, software preloading, and deployment for seamless business integration.
- Accelerated nationwide shipping – Optimized inventory placement to reduce lead times and improve delivery speeds.
- Operational redundancy – Multi-warehouse infrastructure minimizes downtime risks, ensuring business continuity and reliable order fulfillment.
- Secure inventory segregation – Ability to allocate exclusive, secure storage areas for high-value

This expansion boosts Vertex Wireless' distribution capacity, enabling faster fulfillment, scalable 3PL services, and tailored mobility solutions to deliver wireless technology when businesses need it"
