

Cannanda CB2 Oils: The World's Top-Selling Beta-Caryophyllene Health Products Now Available Direct to UK Consumers

Cannanda Expands Global Reach, Offering UK Customers a Superior Alternative to CBD Oils

LONDON, UNITED KINGDOM, March 5, 2025 /EINPresswire.com/ -- Cannanda, the global leader in beta-caryophyllene health solutions and creator of [CB2 oils](#), is proud to announce the launch of its direct-to-consumer (DTC) sales in the United Kingdom. Known for producing the world's best-selling and highest-quality [beta-caryophyllene \(BCP\)](#) products, Cannanda's entry into the UK market provides consumers with a powerful, research-backed alternative to CBD oil for supporting natural health, wellness, and healing.

What is Beta-Caryophyllene (BCP)?

Beta-caryophyllene, or BCP, is a naturally occurring compound found in various plants, including rosemary, cloves, and black pepper. It's the backbone of Cannanda CB2 oils and directly activates the CB2 receptors in the body's endocannabinoid system. This activation helps promote homeostasis and supports various health benefits, including inflammation reduction, pain relief, improved sleep, and overall well-being. Unlike CBD, however, beta-caryophyllene does not interfere with liver metabolism when used as directed, making it a safer and more effective option for many individuals seeking natural remedies—especially for those taking other supplements or medications.

Why [CB2 Oil](#) Over CBD Oil?

The advertisement features a green and blue color scheme. At the top, the text 'CANNANDA CB2' is displayed in white. Below this, a blue banner reads 'Now Available on our new site for the UK!' and 'World's Best-Selling CB2 Oil!'. The central image shows a large map of the United Kingdom in a dark green color. In the foreground, there are three products: a large brown bottle of 'CANNANDA CB2 HEMP SEED OIL', a small white jar of 'CANNANDA CB2 SALVE', and a small brown bottle of 'CANNANDA CB2 WELLNESS'. A gold seal with three stars and the text 'GUARANTEED AUTHENTICITY' is positioned to the right of the map.

Cannanda launches direct sales in the UK of their trademarked CB2 products with guaranteed authentic beta-caryophyllene CB2 oils.

Many UK consumers seeking natural health solutions turn to CBD oil, but Cannanda CB2 offers several key advantages:

- No Risk of Intoxicating Effects – Unlike CBD, which is often derived from cannabis plants and often contains appreciable amounts of THC, Cannanda CB2 oil is 100% THC-free and non-intoxicating.
- No Known Drug Interactions – CBD can interfere with liver enzymes, potentially affecting medication metabolism. CB2 oil, powered by BCP, avoids this issue entirely, making it a safer alternative for those taking other supplements or prescriptions.
- Stronger CB2 Receptor Activation – BCP is a direct activator of CB2 receptors, leading to more targeted and efficient activation compared to CBD, which only has an indirect effect.
- Fully Legal Without Restriction – While CBD regulations in the UK continue to evolve, and international travel and shipping of CBD is restricted, CB2 oil is completely legal, free of restrictions, and can be sold and used with confidence.
- Better Absorption & Stability – Most CBD products are very poorly absorbed. Cannanda CB2 oil

“

We're thrilled to bring Cannanda CB2 oils directly to consumers in the UK. As the creator of CB2 oil, we're excited to empower UK consumers with trusted, natural solutions for better health.”

Dr. Lee Know

- Free of contaminants, third-party tested, and crafted with premium ingredients for optimal absorption and effectiveness

CANNANDA
CB2

FEEL YOUR BEST IN MINUTES

Support your body's natural balance with CB2 activation.

NOW Available in the UK!

Expanding Retail & Direct Access in the UK

While launching direct-to-consumer sales, Cannanda remains committed to working with its UK distributor Green Terpenes (www.greenterpenes.co.uk) to ensure greater accessibility to CB2 oil. This approach provides customers with convenient online access to its full range of products. Green Terpenes will continue to distribute and sell Cannanda's full range of products—including its multi-award-winning hemp seed oil products—while Cannanda will stay focused on a curated selection.

Dr. Lee Know, Founder of Cannanda, shared: "We're thrilled to bring Cannanda CB2 oils directly to consumers in the UK, offering a science-backed, safe, and effective natural health products. As the creator of CB2 oil, we're excited to empower UK consumers with trusted, natural solutions for better health."

The Cannanda Difference

As the original inventor of CB2 oils, Cannanda takes pride in setting the global benchmark for quality and innovation. All Cannanda CB2 oils are:

- Crafted with precision to ensure maximum efficacy. Studies have shown pure BCP doesn't have the same effects as a complex blend. After several years of R&D, Cannanda CB2 has been formulated for improved stability, absorption, and efficacy.
- Rigorously tested to eliminate contaminants. Cannanda CB2 products are free from gluten, eggs, dairy, peanuts, tree nuts, fish, crustaceans, soy, mustard, sesame seeds, sulphites, animal by-products, carrageenan, synthetic ingredients, phthalates, styrene, musk ketone, benzyl acetate, methylene chloride, BHA, BHT, solvent residues, and toxic processing aids.
- Backed by years of scientific research and real-world results. No other BCP products have an extensive proven track record as Cannanda CB2 oils do.

The advertisement features a hand holding a small bottle of Cannanda CB2 Wellness oil. The background is a soft green with floating leaves. The text 'CANNANDA CB2' is at the top, followed by 'CB2: THE SMARTER WELLNESS CHOICE' in large, bold letters. Below this, there are two columns of text. The left column lists three benefits with checkmarks: '100% Natural, No 'Nasties'', 'Lab-Certified for Purity & Safety', and 'Clinically Tested & Proven Formula'. The right column lists three things it is free from with 'X' marks: 'Harmful Chemicals', 'Heavy Metals', and 'Contaminants'. At the bottom, a blue button says 'NOW Available in the UK!'.
