

Explora Books Showcases Albert L. Clark's Novels at London Bookfair 2025

Discover Albert L. Clark's novels at London Bookfair 2025 with Explora Books at Stand 3E38, March 11-13.

VANCOUVER, BRITISH COLUMBIA, CANADA, March 4, 2025

/EINPresswire.com/ -- [Explora Books](#), a marketing and publishing firm based in Canada, will be attending the London Bookfair 2025 at Olympia London from March 11-13, showcasing the works of distinguished author [Albert L. Clark](#) at Stand 3E38. Although Clark himself will not be present, his novels, "[Ancient Destiny](#)" and "Lightning and Thunder," will take center stage, giving readers a unique view of science fiction, history, and personal reflection.

Ancient Destiny Author, Albert L. Clark

"Ancient Destiny" is a stimulating science fiction novel set in the present day, exploring themes of survival, intelligence, and the power of women in leadership roles. The story follows a team of highly skilled women led by a figurehead captain, Craig, as they face the ultimate existential threat—a massive interstellar object on a collision course with Earth. Drawing on historical mysteries and scientific possibilities, the novel reimagines the lost civilization of Atlantis as a colony of Martians who fled their doomed planet, leaving behind hidden knowledge to help future generations escape a similar fate. With a suspenseful narrative that fuses mythology with advanced technology, "Ancient Destiny" offers a thrilling vision of humanity's potential to defy extinction.

Clark's other work, "Lightning and Thunder," is a deeply personal memoir documenting his extraordinary love story with his late wife. Their serendipitous first encounter during a thunderstorm and the miraculous events that shaped their journey together form the foundation of this heartfelt narrative. Clark reflects on their decades-long marriage, the unexplainable coincidences that followed her passing, and the enduring power of love that transcends time. The book honors the enduring bond they shared, highlighting remarkable
