

KeyCue 11: The essential shortcut tool gets a major update

KeyCue 11 brings a modern UI, macOS Sequoia support, and enhanced performance — making shortcut discovery and usage faster.

PERG, AUSTRIA, March 12, 2025
/EINPresswire.com/ -- ergonis Software is excited to announce the release of KeyCue 11, the latest version of its favorite shortcut tool for macOS. This update brings a modernized user interface, full compatibility with macOS Sequoia, and system-wide improvements, ensuring a seamless experience across all applications while making shortcut discovery and usage faster and more intuitive.

Work faster with fewer distractions
KeyCue provides instant access to all available menu shortcuts in any

application, helping users save time, reduce clicks, and boost efficiency. Instead of searching through menus, users can quickly find, learn, and customize shortcuts to fit their workflow.

With KeyCue 11, ergonis introduces a streamlined and modern UI, Unicode 15 support, refined usability, and enhanced performance that further integrate shortcuts into everyday productivity.

KeyCue is designed to help power users to beginners work more efficiently with less cognitive load.
