

# Energy AI Solutions Partners with UnifyCloud to Accelerate AI Application Development with new AI Factory

*Energy AI Solutions to leverage UnifyCloud's CloudAtlas AI Factory to accelerate AI application development to maximize value and ROI and minimize risk.*

REDMOND, WA, UNITED STATES, March 4, 2025 /EINPresswire.com/ -- [Energy AI Solutions](https://www.energyai.com), a leading provider of vision-based artificial intelligence (AI) solutions, has announced a strategic partnership with [UnifyCloud](https://www.unifycloud.com) to leverage the CloudAtlas AI Factory for rapid AI application development and deployment. This collaboration will enable organizations to test and validate AI applications with proof of concepts before committing extensive resources to reduce risk while maximizing return on investment.

“

By partnering with UnifyCloud, we can help organizations quickly develop, deploy, and test AI applications and transition from proof of concept to production with less risk and greater confidence.”

*Isaiah Marcello, Co-Founder  
at Energy AI Solutions*

Based in Houston, the Energy Capital of the World, Energy AI Solutions specializes in AI-driven operational efficiencies, providing easy-to-use analytic tools powered by Microsoft’s advanced AI capabilities. As a Microsoft Partner, Energy AI Solutions will utilize the AI Factory to streamline AI integration and implementation, allowing businesses to confidently invest in AI solutions with minimized risk and accelerated time to value.

UnifyCloud, a Microsoft Solutions Partner and ten-time Microsoft Partner of the Year honoree brings its expertise in app, data, and AI modernization and innovation to the partnership. CloudAtlas is a proven platform for assessing,

planning, and implementing cloud modernization. Its AI Factory module will now be instrumental

in facilitating Energy AI's mission to enable fast, secure, and efficient AI deployments.

"This partnership is a huge win for companies looking to integrate AI into their operations," said Isaiah Marcello, Co-Founder at Energy AI Solutions. "By partnering with UnifyCloud, we can help organizations quickly develop, deploy, and test AI applications so that they can transition from proof of concept to production with less risk and greater confidence. We can also seamlessly apply responsible AI frameworks to assist in monitoring and maintaining data privacy and ethical AI usage."

"AI Factory was built to simplify and accelerate AI transformation. We're excited to partner with Energy AI Solutions in their goal of bringing innovative AI to their clients in the energy industry" said Marc Pinotti, UnifyCloud co-founder and CEO. "Their expertise in vision-based AI, combined with our cloud and AI transformation solutions, will help companies realize the full potential of AI with speed and precision."

With this partnership, Energy AI Solutions and UnifyCloud are making AI adoption more accessible, allowing businesses to rapidly validate AI concepts and scale their solutions cost-effectively, efficiently, and securely.

### About Energy AI Solutions

Energy AI Solutions, headquartered in Houston, Texas, is a Microsoft Partner specializing in vision-based artificial intelligence solutions that drive operational efficiencies. Leveraging Microsoft's newly available APIs, the company provides businesses with easy-to-use analytical tools that simplify AI integration, optimize workflows, and accelerate digital transformation. Led by industry experts, Energy AI Solutions helps organizations harness the power of AI for improved productivity, cost savings, and strategic innovation.
