and enhanced healthcare access contribute to this trend.

Atryn, a recombinant antithrombin therapy, plays a vital role in preventing blood clots, reducing severe complications, and improving long-term health outcomes for patients with chronic illnesses.

For example, a 2022 report by the National Association of Chronic Disease Directors (NACDD) found that 60% of U.S. adults have at least one chronic disease, while 40% suffer from multiple chronic conditions (MCC). By 2030, chronic diseases are projected to cost the U.S. economy \$2 trillion annually, or \$8,600 per person.

Who Are the Major Players in the Atryn Market?

Key companies in the Atryn market include rEVO Biologics Inc. These organizations continue to contribute to market growth through research, development, and innovative treatment solutions.
