The P2P marketplace lending segment held the highest market share in 2023.

By type, the P2P marketplace lending segment held the highest market share in 2023. Rise in P2P lending can be attributed to several factors, including technological advancements, the appeal of potentially higher returns for investors, and more accessible loan options for borrowers compared to conventional banking routes.

The 30-50 segment held the highest market share in 2023.

By age, the more than 50 segment held the highest market share in 2023. Individuals in the 30-50 age range are often more financially stable, with established careers and higher disposable

incomes, making them more likely to engage in lending, investment, and borrowing activities.

The banks segment is expected to hold the highest market share in 2023.

By distribution channel, the banks segment held the highest market share in 2023. Banks offer a comprehensive range of financial products and services, from savings and checking accounts to loans and investment services.

North America to maintain its dominance by 2032.

Based on region, North America held the highest market share in terms of revenue in 2023 and is expected to boost in terms of revenue during the forecast timeframe. Well-developed financial infrastructure is accelerating the adoption of the most recent technologies, including secured personal loans in North America.
