

Arionkoder Selected as One of America's Best Startup Employers 2025 for Innovation and Workplace Excellence

Recognized for innovation, growth, and workplace excellence, Arionkoder earns a spot on Forbes' 2025 list of America's Best Startup Employers.

BOSTON, MA, UNITED STATES, March 5, 2025 /EINPresswire.com/ -- Arionkoder is honored to announce that we have been recognized as one of America's Best Startup Employers 2025 by Forbes and Statista. This prestigious ranking highlights the top-performing startups in the United States based on employer reputation, employee satisfaction, and company growth.

The ranking, published today on the Forbes website, was developed through a rigorous analysis by Forbes and market research firm Statista for the sixth annual list of America's Best Startup Employers. To identify the top 500 startups, Statista assessed 3,000 privately-held companies headquartered in the U.S., each with over 50 employees, founded between 2015 and 2022, and independently established (not a corporate spinoff). Companies were evaluated across three key areas: employer reputation, employee satisfaction, and growth. Millions of data points, including media mentions, employee reviews, company policies, and growth metrics, were analyzed to determine the highest-scoring startups that made the final ranking.
