

# SWYE360 AI Launches Groundbreaking EdTech Software Search Engine Leveraging AI and Teacher Feedback.

FRISCO, TX, UNITED STATES, March 5, 2025 /EINPresswire.com/ -- [SWYE360 AI](#), a leader in education technology analytics, is proud to announce the launch of its revolutionary EdTech Software [Search Engine](#). This first-of-

its-kind solution harnesses advanced language learning models (LLMs) and real-time teacher feedback to evaluate the effectiveness and engagement of instructional software, helping educators research, assess, get teacher sentiments on any software, and identify similar tools that can enhance learning outcomes in the classroom.

## SWYE360.AI

SWYE360 AI Search Engine

“

With the increasing number of edtech tools available, educators need a solution that goes beyond usage tracking and delivers meaningful insights on instructional effectiveness,”

*Jacob Makuvire*

In today’s rapidly evolving digital education landscape, school districts often struggle to assess which edtech solutions truly support student success. It takes educators at least 360 minutes to research and assess any software. With the SWYE360 AI search engine, users can get powerful insights on any software in less than three seconds. SWYE360 AI’s search engine solves this challenge by providing data-driven insights into software utilization, engagement levels, and instructional impact. The platform’s AI-powered search engine evaluates instructional tools using teacher feedback, student

engagement metrics, and AI-driven analysis, enabling school leaders to make informed decisions about the software they adopt.

Key Features of the SWYE360 AI Search Engine:

**AI-Powered Analysis:** Utilizes language learning models to assess instructional software effectiveness and engagement.

**Teacher-Driven Insights:** Collects real-time feedback from educators to gauge usability and impact.

**Smart Software Matching:** Identifies similar tools that align with teaching needs and curriculum goals.

Data-Backed Decision Making: Provides actionable reports to school administrators and technology directors.

Integrated Research and Data Sources and Lesson Plan integration

“With the increasing number of edtech tools available, educators need a solution that goes beyond usage tracking and delivers meaningful insights on instructional effectiveness,” said Jacob Makuvire, CEO & Founder at SWYE360 AI. “Our search engine empowers schools to make smarter choices by leveraging AI and teacher input, ensuring students benefit from the best possible digital learning experiences.” Dr. Judith Campbell, Deputy Superintendent of Kansas City Public Schools, says, “... there are so many software out there that have transferable components...effectiveness related to cost and outcomes take time that some may not have...”

SWYE360 AI's innovative approach bridges the gap between data analytics and educator expertise, enabling schools to maximize their technology investments while improving student outcomes. The SWYE360 AI search engine is now available for school districts and education leaders seeking to enhance their instructional technology strategies.
