

Key Trend Shaping The Dukoral Market In 2025: Advancements In Low-Cost Oral Cholera Vaccines

*The Business Research Company's
Dukoral Global Market Report 2025 –
Market Size, Trends, And Global Forecast
2025-2034*

LONDON, GREATER LONDON, UNITED
KINGDOM, March 5, 2025
/EINPresswire.com/ -- Is the [Dukoral
Market](#) Set to Witness Substantial
Growth?

The Business
Research Company

The Business Research Company

The global Dukoral market, which focuses on oral cholera vaccines, has expanded significantly in recent years. This growth is primarily driven by the increasing number of cholera cases

worldwide, which are exacerbated by poor sanitation, contaminated water sources, and climate change. The demand for oral vaccines like Dukoral has risen as a result.

*The Business Research
Company*

- The Dukoral market size was valued at \$XX million in 2024 and is projected to grow at a compound annual growth rate (CAGR) of XX%, reaching \$XX million by 2025.

- Key contributors to this growth include increasing

government investments in vaccination initiatives, heightened public awareness regarding cholera prevention, and a greater demand for oral cholera vaccines.

- Additional factors such as the rising prevalence of antibiotic-resistant infections, growing awareness of waterborne diseases, and frequent cholera outbreaks have further supported market expansion.

Looking ahead to 2029, the Dukoral market is expected to continue its growth trajectory, with a projected CAGR of XX% leading to a market size of \$XX million. This growth is attributed to:

- Strengthened government efforts to expand vaccination programs.
- A growing emphasis on preventive healthcare.
- Increasing public awareness of the importance of cholera vaccination.
- Sustained demand for oral vaccines.

Advancements in technology and manufacturing processes are expected to further enhance the Dukoral market. Companies are working on improving oral vaccine formulations, extending vaccine shelf life for better distribution in areas with inadequate healthcare facilities, and developing innovative vaccine formulations through cutting-edge research.

What Drives the Dukoral Market Growth?

The primary driver of the [Dukoral market's growth](#) is the increasing prevalence of cholera cases worldwide. Cholera is a severe diarrheal disease caused by ingesting food or water contaminated with *Vibrio cholerae*, leading to extreme dehydration and, in severe instances, death. Dukoral helps mitigate the spread of cholera by inducing immunity against *Vibrio cholerae* bacteria and its toxin, significantly reducing the risk of infection.

Recent data from the World Health Organization (WHO) has highlighted an alarming rise in cholera cases. In 2023, global cholera cases increased by 13%, while fatalities surged by 71% compared to 2022. This sharp increase in cases and mortality rates is expected to drive the demand for Dukoral, fueling market growth.
