

# Sego Lily Skincare Brings Regeneratively Sourced, Tallow-Based Skincare to the Market

*Sego Lily Skincare is redefining natural skincare with tallow-based formulations designed for deep hydration, skin nourishment, and long-term results.*

POMPEYS PILLAR, MT, UNITED STATES, March 5, 2025 /EINPresswire.com/ -- [Sego Lily](#) Skincare is redefining [natural skincare](#) with [tallow](#)-based formulations designed for deep hydration, skin nourishment, and long-term results. Sourced exclusively from Montana's finest regeneratively raised, organic grass-fed tallow, Sego Lily provides a pure, high-performance alternative to synthetic skincare solutions.

Founder Holly Stoltz launched Sego Lily Skincare after identifying a critical gap in the market. While seeking a natural,

results-driven approach to skincare, she discovered tallow-based products and was impressed by their transformative effects. Existing formulations often lacked refinement, particularly in scent and consistency, and this is precisely where Sego Lily stands out. Driven by the need for a more

“

Our formula penetrates deeply, restores the skin barrier, and delivers a soft, healthy glow—without the synthetic additives found in traditional skincare.”

*Holly Stoltz*

Seeing is believing. This is Sego Lily Skincare Founder's incredible transformation pictures after only six months using tallow natural skincare.

sophisticated, market-ready solution, Stoltz developed a proprietary blend that delivers maximum efficacy while maintaining a clean, appealing sensory experience.

Unlike conventional moisturizers that rely on fillers, preservatives, and synthetic additives, Sego Lily's formulations leverage just four key ingredients—organic Montana tallow, USDA-certified organic oils, and all-natural plant-based fragrances. These elements work synergistically to support skin health by:

Strengthening the skin barrier and promoting natural healing  
Delivering essential Omega-6 fatty acids & Vitamins A, D, E, and K for hydration and elasticity  
Supporting collagen production for a firm, youthful complexion  
Providing anti-inflammatory and antimicrobial properties for conditions like eczema, psoriasis, and severe dryness

"Tallow is a powerhouse ingredient for hydration and skin repair, but combining it with organic oils like Argan, Hibiscus, or Perilla Seed enhances its performance even further," says Stoltz. "Our formula penetrates deeply, restores the skin barrier, and delivers a soft, healthy glow—without the synthetic additives found in traditional skincare."

Sego Lily Skincare prioritizes ingredient traceability and sustainability. Each product can be linked back to the specific ranch where its tallow was sourced, ensuring a fully transparent supply chain. With a commitment to purity and efficacy, Sego Lily offers businesses in the skincare, wellness, and boutique retail industries a premium, organic alternative free from synthetic chemicals, hormones, and antibiotics.

Currently, Sego Lily's customer base grows by a factor of 12% MoM with reorders from 35% of its customer base.
