

# Patriot Power Services Expands into Load Bank Solutions with Liquid-Cooled Technology for Data Centers

*Patriot Power Services, LLC (PPS), a subsidiary of Overwatch Holdings Inc., announces the launch of its full-service load bank solutions.*

AUSTIN, TX, UNITED STATES, March 6, 2025 /EINPresswire.com/ -- [Patriot Power Services, LLC \(PPS\)](#), a subsidiary of [Overwatch Holdings Inc.](#), announces the launch of its full-service load bank solutions, tailored for the data center industry. As hyperscalers and mission-critical operators navigate the increasing demands of AI and cloud computing, PPS is introducing advanced liquid-cooled and air-cooled load bank solutions to ensure reliable commissioning and operational testing.

“

By integrating liquid-cooled load banks and offering fleet management, Patriot Power Services is helping hyperscale and enterprise data centers optimize power infrastructure with unmatched precision.”

*Kirk Offel, CEO*

## Comprehensive Load Bank Services for Data Centers

PPS provides both short- and long-term load bank rentals, along with labor support, ensuring seamless commissioning and power testing when and where it's needed.

- Liquid-Cooled Load Banks – Designed for high-density environments, these advanced systems feature non-corrosive stainless-steel tanks and piping for superior durability.
- Air-Cooled Load Banks – Available in multiple sizes to

support traditional and hybrid high-density cooling requirements.

- Labor Support – Factory-trained technicians assist with installation, operation, and power quality reporting for commissioning.

Turnkey Fleet Management & Augmentation

With many hyperscale operators maintaining fleets of load banks, PPS offers a comprehensive fleet management program to optimize performance, extend equipment life, and eliminate ownership headaches.

- Fleet Management – PPS oversees deployment, maintenance, and lifecycle management across multiple data center locations.
- Fleet Augmentation – Clients receive priority rental access at discounted rates and can leverage PPS's OEM partnerships for streamlined equipment purchases.
- On-Site Technical Support – Skilled technicians ensure proper installation, operation, and real-time testing.

By leveraging PPS's expertise, data center operators can ensure that backup power systems are rigorously tested, maintained, and prepared for real-world scenarios.

"The reliability of data center infrastructure is mission-critical, and rigorous testing with the right technology is paramount," said Kirk Offel, CEO of Overwatch Holdings Inc. "By integrating liquid-cooled load banks and offering specialized fleet management, Patriot Power Services is helping hyperscale and enterprise data centers optimize power infrastructure with unmatched precision."

As a Service-Disabled Veteran-Owned Small Business (SDVOSB) certified by the National Veteran Business Development Council (NVBDC), both Patriot Power Services and Overwatch Holdings Inc. bring military-grade discipline, leadership, and excellence to the mission-critical industry.
