[CRN's MSP 500 list](#) honors the top managed service providers that are transforming the IT landscape with innovative solutions. The Pioneer 250 category specifically recognizes companies that have built their business model around providing managed services to the SMB market.

“Being named to CRN's MSP 500 list is a testament to our team's dedication, the investments we've made in our managed services practice, and our mission to simplify IT

for businesses by offering a comprehensive technology-as-a-service stack,” said Maryann Pagano, CEO and Co-Founder of BlackHawk Data.

Over the past year, BlackHawk Data has significantly expanded its Managed Services division, investing in talent, support infrastructure, and refined service offerings to better serve clients. The company's 2025 strategy is focused on continued growth, with a goal of acquiring two new managed services customers per month. With a sharpened marketing strategy and a commitment to customer success, BlackHawk Data is poised to help even more businesses
