

Global Digital Clothing Market Growing at 26.4% CAGR Reach USD 4.8 Billion by 2031 Globally

WILMINGTON, DE, UNITED STATES, March 6, 2025 /EINPresswire.com/ -- According to the report published by Allied Market Research, [Global Digital Clothing Market](#) Growing at 26.4% CAGR Reach USD 4.8 Billion by 2031 Globally . The report provides an extensive analysis of changing market dynamics, major segments, value chain, competitive scenario, and regional landscape. This research offers valuable able guidance to leading players, investors, shareholders, and startups in devising strategies for sustainable growth and gaining a competitive edge in the market.

The global digital clothing market was valued at \$498.7 million in 2021, and is projected to reach \$4.8 billion by 2031, growing at a CAGR of 26.4% from 2022 to 2031.

Rise in the development of the metaverse, the growing demand for sustainable clothing, and the surge in digitalization drive the growth of the global digital clothing market. However, high cost of digital garments hinders the global market growth. On the other hand, the growing trend of fast fashion and non-fungible tokens (NFTs) and a rapid advancement in augmented reality (AR) and virtual reality (VR) gaming industry present new growth opportunities for the global market in the coming years.

Covid-19 Scenario

□ Before the pandemic, digitization and fashion technology were not completely unrelated. Designers used digital fashion technology to create intricate and geometric patterns that were difficult to create manually. Data-integrated supply chains, AI-assisted design, tech-infused brick-and-mortar stores, and more already existed for some brands and retailers.

□ The Covid-19 pandemic accelerated the trend of digital transformation tenfold in the fashion industry, and normalized and democratized the idea of going digital even more.

□ Thus, the Covid-19 pandemic had a positive impact on the digital clothing industry.

Based on region, North America was the largest market in 2021, capturing nearly two-fifths of the global digital clothing market share and likely to lead in terms of revenue in 2031. Digital clothing continues to fuel business revenue growth in North America, due to growth in the metaverse, virtual reality, and augmented reality technology in the region. Rise in investments in non-fungible assets (NFT) and digital penetration also drive the growth of digital clothing in this region. However, the market in Asia-Pacific is expected to manifest the fastest CAGR of 27.84% during the forecast period. This is due to rapid urbanization and an increase in digital content creation and acceptance in the region.

Competitive analysis and profiles of the major digital clothing industry players, such as Adidas AG, Auroboros, Dolce & Gabbana S.r.l., DRESSX, Kering (Gucci), H&M Group, LVMH, Nike, Inc., Replicant, Inc. and The Fabricant are provided in this report.
