# Fidesic Releases App Update with New Look

Fidesic's new user interface style offers a friendlier experience with sleeker design.

LANSING, MI, UNITED STATES, March 6, 2025 /EINPresswire.com/ -- The latest release of the Fidesic accounts payable automation offers a much sharper looking app with improved user experience, Fidesic announced today.

"In my biased opinion, we already had one of the best looking accounts payable apps in the Microsoft Dynamics ISV channel, but we can always do better," said Kevin Pritchard, Fidesic's VP of Product and Growth. "The latest updates are part of our commitment to continually improving user experience. Our team did a great job and Fidesic now looks the best it's ever looked."

Make Payables Awesome!

Sometimes called the "Aesthetic-Usability Effect," studies have shown that a visually pleasing user experience can improve usability (Source). The hope is that the latest feature improvements combined with the new look of the app will help users get more done with less effort, said Fidesic.

"

The latest updates are part of our commitment to continually improving user experience. Our team did a great job and Fidesic now looks the best it's ever looked."
