

Polyprint Filmjet DTF System Now Available from DTGPRO.com

DTGPRO.com Releases Polyprint Filmjet DTF System in the U.S. market

LOS ANGELES, CA, UNITED STATES, March 7, 2025 /EINPresswire.com/ -- Polyprint has unveiled the Filmjet DTF System, a groundbreaking, all-in-one solution for Direct to Film (DTF) printing, now available exclusively at DTGPRO.com. Precision engineered and manufactured in Europe, the Filmjet combines automation, efficiency, and exceptional print quality to meet the demands of high-volume DTF producers.

The Filmjet stands as the most automated DTF printing solution on the market today, designed to streamline production processes with Smart System Control, Constant Film Tension, and fully automated powder application and recycling. Its multi-zone curing system and industrial-grade printing speeds ensure reliable, high-quality output while significantly reducing material waste and energy consumption.

“

The Polyprint Filmjet DTF System represents a major advancement in direct-to-film printing technology,”
Dimitris Constantinou, CEO

"The Filmjet DTF System represents a major advancement in [direct-to-film](#) printing technology," said Dimitris Constantinou, CEO of DTGPRO.com. "We're excited to bring this European-engineered solution to businesses looking to scale their production capabilities."

Key Features:

Integrated Roll-to-Roll System combining printer, powder applicator, and dryer in one unit
Advanced Automation including smart controls, ink circulation, and powder recycling
High-Performance Print Technology featuring four staggered i3200 printheads for superior

speed and precision

With impressive production speeds of up to 258 square feet per hour, the Filmjet offers unmatched scalability and reliability for businesses looking to grow their DTF printing operations.

The system is available as a complete turnkey package, which includes RIP software, Filmjet DTF inks, and all necessary consumables. The entire system is backed by a comprehensive 1-year warranty that covers all components, including printheads, ensuring seamless operation and peace of mind for customers.
