

# Date Detective: The App That Puts Dating Safety First

*Empowering Singles with Free Dating Reviews and Affordable Public Records Checks*

NEW YORK CITY, NY, UNITED STATES, March 7, 2025

/EINPresswire.com/ -- In an era where online dating has become the norm, safety remains a major concern. Date Detective, a groundbreaking new app, is tackling this issue head-on by offering users affordable access to public records and criminal history, helping them make informed decisions before meeting someone new.

With the rise of online dating scams, catfishing, and alarming safety concerns, Date Detective provides a much-needed layer of protection. The app enables users to verify identities, uncover potential red flags, and crowdsource information through community-driven reviews. By offering features like “Spill the Tea,” where users can share their dating experiences, and “Request for Tea,” where individuals can ask for insights on potential dates, Date Detective creates a transparent and safer dating landscape.

“Dating should be exciting, not dangerous,” said Sarah Tulkki, co-founder of Date Detective. “We built this platform to empower people with knowledge, allowing them to navigate dating with confidence and peace of mind.”

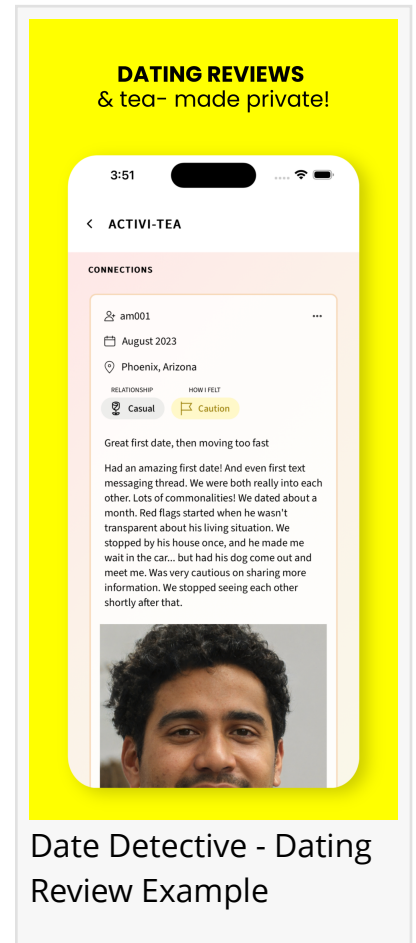

Date Detective’s user-friendly interface ensures that anyone can conduct quick and reliable dating review and public records checks. Unlike traditional background check services, the app is designed specifically for the modern dater, making vital safety information accessible without breaking the bank.
