

# TuxCare EMEA Sales Leader To Speak at CloudFest 2025

PALO ALTO, CA, UNITED STATES, March 10, 2025 /EINPresswire.com/ --

[TuxCare](#), a global innovator in cybersecurity, today announced that Sven Sellen, EMEA sales leader, is slated to speak at [CloudFest 2025](#), the world's largest cloud industry event, taking place March 17-20 in Europa-Park, Germany.

At 2:45 p.m. (CET) on Tuesday, March 18th, on the Ring Stage (Dome), Sellen

will present an introduction to TuxCare's rebootless patching. Many organizations don't realize how much their conventional Linux vulnerability patching approach is holding them back – causing unnecessary downtime, end-user disruptions, a heavier-than-needed workload for their IT staff, and potentially causing delayed patch deployments. In his talk, Sellen will demonstrate how teams can put patching on autopilot and minimize downtime and disruptions while winning back a significant amount of working hours that can be channeled into other business-critical tasks.

For more information on Sellen's session, visit <https://www.cloudfest.com/agenda#/talk?id=74758>.

Sellen serves as TuxCare's EMEA sales leader dedicated to enterprise customers in the region. With more than 25 years of experience in consulting, sales engineering, and project management, he has built deep expertise in cybersecurity – particularly in endpoint security, DDoS protection and managed services. A seasoned speaker, he frequently presents at industry and partner events across Europe, sharing insights on the evolving cybersecurity landscape. His thought leadership has also been featured in prominent publications such as IT-Security Journal, Computerwoche, and heise online.
