*Bryan Leber, VP, Product & Service Delivery at Fischer Identity*

"Our growth in 2024 reflects the trust our customers place in Fischer Identity to secure their most critical assets," said Bryan Leber, VP, Product & Service Delivery. "As the identity security landscape evolves, we remain committed to delivering cutting-edge solutions that simplify IAM while ensuring the highest levels of security and compliance."

Strategic Partnerships Fuel Expansion

In 2024, Fischer Identity forged key partnerships with [Software Productivity Strategists \(SPS\)](#), [Instrumental Identity](#) and a globally recognized professional services firm, further strengthening its ability to deliver comprehensive identity solutions. These collaborations enhance Fischer's integration capabilities, extend its reach into new markets, and reinforce its position as an IAM leader.

"Strategic partnerships are a cornerstone of Fischer Identity's success," said Chuck Donnelly, VP, Field Operations. "Partnering with these organizations enables us to deliver Fischer's robust, scalable identity solutions, built to meet the unique needs of our mutual customers."

Industry Engagement & Thought Leadership

Fischer Identity maintained a strong presence at top IAM and industry-specific conferences, including Identiverse, EDUCAUSE, the Gartner IAM Summit, the HESS Consortium Conference, NERCOMP and others. Through keynote presentations, panel discussions, and product showcases, Fischer reinforced its reputation as a thought leader in identity security.

## Innovating for the Future: Version 8.2 Released in February 2025

As part of its commitment to continuous product development, Fischer Identity invested heavily in development through 2024 and has now released Version 8.2 of its IAM platform, utilizing a modern Microservices architecture. This latest version brings significant enhancements designed to improve user experience, increase efficiency, and provide powerful administrative capabilities

"The release of Version 8.2 underscores our dedication to delivering forward-thinking IAM solutions," said Leber. "By leveraging Microservices architecture, we are empowering our team to speed development and deployment simplify scaling and add greater agility."
