These achievements underscore the company's unwavering commitment to innovation and its mission to redefine the future of technology in the insurance industry.

## Patent Highlights

### 1. Patent US-11604926-B2

Filed: February 21, 2020 | Issued: March 14, 2023

Focus: A method and system for creating and summarizing unstructured natural language sentence clusters for efficient tagging.

Benefits: Enhances natural language processing (NLP) tasks by removing domain noise and hierarchically clustering sentences for more efficient tagging.

Inventors: Ramaswamy Venkateshwaran, Sridevi Ramaswamy, Priya Rani, Huanchen Li, and Ke Chen.

### 2. Patent US-11797778-B2

Filed: February 7, 2023 | Issued: October 24, 2023

Focus: A computerized natural language processing system with insights extraction using semantic search.

Benefits: Enables the extraction of domain-specific insights from large documents through semantic analysis.

Inventors: Ramaswamy Venkateshwaran, Sri Ramaswamy, John Standish, and Tim Evans.

### 3. Patent US-11900066-B2

Filed: November 14, 2022 | Issued: February 13, 2024

Focus: A computerized natural language processing system with insights extraction using semantic search.

Benefits: Introduces a method to tag domain-relevant semantic hashtags through NLP document analysis.

Inventors: Ramaswamy Venkateshwaran, Sri Ramaswamy, John Standish, and Tim Evans.
