

# Healthcare Cyber Security Market- USD 57.25 Billion by 2030 With Top Industry Players, AMR Research Report

*The report offer an extensive analysis of changing market trends, value chain, top segments, top investment pockets, regional scenarios, & competitive landscape*

WILMINGTON, DE, UNITED STATES, March 10, 2025 /EINPresswire.com/ --

Rise in number of cyber-attacks and increase in demand for cloud services drive the growth of the global healthcare cyber security market.

Furthermore, regulatory and government policies that encourage the healthcare business to strengthen

its security standards have a favorable impact on the growth of the healthcare cyber security market. On the contrary, high installation cost of healthcare cyber security solutions impedes the market growth. However, rise in digital dependence and industry 4.0 trends present new opportunities in the coming years.

The [global healthcare cyber security industry](#) generated \$12.85 billion in 2020, and is projected to reach \$57.25 billion by 2030, manifesting a CAGR of 16.3% from 2021 to 2030.

The report offers detailed segmentation of the global healthcare cyber security market based on component, security type, and region.
