#### About Children's Harbor:

Established in 1996, Children's Harbor is a nationally accredited child welfare organization with a mission to help strengthen families who are struggling in our community, while providing safe shelter and support to teens in foster care so that they may grow into healthy, educated and productive adults.

With the belief that children should feel safe, that family is worth fighting for and that cycles can be broken, Children's Harbor provides a harbor of hope and healing for children who have been impacted by the trauma of child abuse. The main campus in Pembroke Pines provides a supportive family environment for teenagers in foster care and their younger siblings. The family support services program prevents kids from coming into foster care by providing free in-home counseling and support to families who are struggling in the community. Additionally, Brown's Harbor is a supportive housing community dedicated to serving young adults, aged 18-23, who have aged out of the foster care system. These young adults are provided with affordable housing and the wrap-around support and independent living programs necessary to help them overcome their trauma and navigate through the early stages of adulthood.
