

# Whiting Systems to unveil latest update to the autonomous internal trailer wash out at TMC booth 1529

*Whiting Systems to unveil latest update to the autonomous internal trailer wash out at TMC booth 1529*

ALEXANDER, AR, UNITED STATES, March 10, 2025 /EINPresswire.com/ -- Whiting Systems, a global leader in large vehicle wash solutions, is excited to announce their member support to ATA Technology Maintenance Council (TMC) . The event, which will take place from March 10-13 in Nashville TN, will host many new technologies and advancements such as Whiting Systems [autonomous internal trailer wash out](#), [automated three brush gantry](#) and semi automated mono brush.

“

We are excited to showcase our latest technology and connect with industry professionals at this years TMC.”

*Jason Rhoads*

At booth 1529, Whiting Systems will be showcasing their new autonomous internal trailer washout system. This cutting-edge technology is designed to save time, labor, and cost for fleet owners and operators. The system utilizes advanced sensors and robotics to efficiently clean the interior of trailers, eliminating the need for manual labor and reducing the risk of injuries. This innovative solution is set to revolutionize the way large vehicles are washed and maintained.

In addition to showcasing their latest technology, Whiting Systems is also offering a chance to win a continuing educational trip to their Bayou Blast. This exclusive event, held in New Orleans, Louisiana, is a unique opportunity for transportation professionals to network and learn from industry experts. To enter the giveaway, attendees can simply stop by booth 1529 and scan their badges.

"We are thrilled to be a part of this year's TMC Annual Meeting and Transportation Technology Exhibition," said Jason Rhoads, Director of Marketing for Whiting Systems. "Our team has been working tirelessly to develop innovative solutions that address the challenges faced by the transportation industry. We are excited to showcase our latest technology and connect with industry professionals at this years TMC."

Whiting Systems, a leading provider of truck washing and maintenance solutions, is excited to announce the debut of their newly designed Internal Trailer Wash Out for refrigerated trucks at the upcoming TMC Technology Maintenance Council in Booth 1529. This year's show will feature the company's automated three brush gantry and [semi-automated mono brush](#), providing attendees with a firsthand look at the latest in truck washing technology.

The Internal Trailer Wash Out is a revolutionary solution for fleet maintenance managers looking to improve the cleanliness and efficiency of their refrigerated trucks. With its advanced design and state-of-the-art technology, this system offers a thorough and effective wash out process, ensuring that trucks are properly cleaned and ready for their next load. This new product is just one of the many innovative solutions that Whiting Systems has to offer.

In addition to showcasing their latest products, Whiting Systems is also offering attendees the chance to win a trip to their continuing educational event, "Bayou Blast." This event brings together like-minded fleet maintenance managers for a weekend of networking, learning, and fun in the beautiful Bayou region. Don't miss your chance to win this exciting opportunity by stopping by Booth 1529 at the TMC Technology Maintenance Council.

Whiting Systems is dedicated to providing top-of-the-line solutions for the trucking industry, and

their investment as members of the TMC Technology Maintenance Council is a testament to their commitment to innovation and excellence. Don't miss this opportunity to see their products in action and learn more about how Whiting Systems can help improve your fleet maintenance operations. Visit Booth 1529 at the TMC Technology Maintenance Council and see the future of truck washing technology.

Don't miss your chance to see the future of vehicle wash technology and win a trip to the Bayou Blast. Visit Whiting Systems at booth 1529 at the TMC Annual Meeting and Transportation Technology Exhibition.
