

Chicago Artist Richard Glick Featured in Art Center Sarasota's Juried Show

Epoch of Change: Footprints of Humanity' explores contemporary themes through art.

SARASOTA, FL, UNITED STATES, March 12, 2025 /EINPresswire.com/ -- Celebrated Chicago-based artist [Richard Glick](#) has been selected to showcase his work at [Art Center Sarasota's](#) juried exhibition, Epoch of Change: Footprints of Humanity. The exhibition, which explores the relationship between humanity and nature, runs from March 13 to April 19, 2025, with an opening night reception on March 13 from 5 to 7 p.m.

Glick's abstract paintings are a unique exploration of time, memory, and transformation, deeply layered to reflect his evolving perspectives. His signature technique of adding and removing paint over time allows his works to develop organically, mirroring the changing landscapes and human experiences that inspire them. His work, a testament to his unique artistic approach, has been exhibited nationally, with recent showings at the Affordable Art Fair in New York, Nu Museum Gallery in Dallas, and various curated exhibitions in major art markets.

"My paintings reflect my experiences—the changes I've gone through in my life—the new things, the old things, the past, and the present," Glick said. "Each painting is an experience that takes time and is created in stages. I add and delete elements as I paint and often return to old paintings to recreate and reinvent them."

Following the Sarasota exhibition, Glick will present his work at two upcoming art fairs in New York City:

[Superfine Art Fair](#), Brooklyn Navy Yards (April 24-27, 2025): A contemporary art fair featuring independent artists, Superfine offers a direct connection between collectors and creators. Glick's

work will be showcased alongside emerging and established artists. Focus Art Fair, Chelsea (May 15-18, 2025): Held at Chelsea Piers, this international fair highlights cutting-edge contemporary art and is curated by a respected group from Japan. Glick will exhibit three large-scale paintings in a high-visibility space.
