

SPA to Prime Space Systems Command's DevSecOps Platform and Space C2 Software Enablement Contract

ALEXANDRIA, VA, UNITED STATES, March 11, 2025 /EINPresswire.com/ -- Systems Planning & Analysis (SPA), a leading global provider of data-driven analytical insight supporting critical national security objectives, has been awarded a prime contract for U.S. Space Force Space Systems Command's [DevSecOps](#) Platform and Space Command and Control (C2) Software Enablement. The contract, initially valued at up to \$211 million, provides for secure infrastructure, platform, networks, and support layers to enable development, integration, test, and fielding of space mission software. Work will occur primarily in El Segundo, CA, and Colorado Springs, CO.

SPA SVP and Division Director Bruce Phillips

SPA Space and Intel Division Director Bruce Phillips commented, "Along with our valued teammates, we are excited to expand our support of Space Systems Command's Battle Management Command, Control, & Communications Program Executive Office. Our approach combines the people, proven DevSecOps processes, and innovative hybrid multicloud environment technologies to deliver Space Domain Awareness and other critical warfighter capabilities. We're ready and eager to continue the mission for the U.S. Space Force."

SPA has delivered Platform and Infrastructure, Theater Support Applications, and Engineering for the U.S. Space Force on the Space C2 DevOps contract, supporting Kobayashi Maru since program inception in 2020.
