The ITSM market is segmented on the basis of component, function, deployment mode, enterprise size, end user, and region. On the basis of component, the market is categorized into service management solution and services. On the basis of function, the market is divided into configuration management, performance management, network management, and database management system. By deployment mode, it is divided into on-premise and cloud. On the basis of enterprise size, the market is classified into large enterprise and small & medium-sized enterprise. On the basis of end user, the market is segregated into BFSI, healthcare, retail & e-commerce, IT & telecom, manufacturing, and others. By region, the market is analyzed across North America, Europe, Asia-Pacific, and LAMEA.

Region-wise North America dominated the ITSM market share in 2022, owing to the surge in the integration of artificial intelligence (AI) and machine learning (ML) within ITSM frameworks, aimed at automating routine tasks, improving predictive analytics, and enhancing overall service delivery. However, Asia-Pacific is expected to witness the fastest growth in the upcoming year, owing to the organizations leveraging ITSM to navigate through digital transformation by adopting machine learning algorithms and integration of artificial intelligence within digital technologies. Cloud computing is a prevailing trend, offering scalability and flexibility for IT service delivery.

The key players profiled in the ITSM industry analysis are Atlassian, BMC Software, Inc., Broadcom, Cloud Software Group, Inc., Freshworks Inc., Hewlett Packard Enterprise Development LP, IBM Corporation, Ivanti, Inc., Open Text Corporation, and ServiceNow, Inc. These players have adopted various strategies to increase their market penetration and strengthen their position in the ITSM industry.
