Same Crave-Worthy Taste, Smarter Nutrition

Crossover Blends™ burgers look, cook, and taste just like traditional ground beef—but they're leaner, packed with 32g of protein, 20% of daily iron, and lower in fat and calories. The patented recipe ensures every bite is juicy, flavorful, and easy to cook straight from frozen in just 12 minutes.

“Crossover Blends™ make weeknight meals effortless—whether you're grilling burgers, making tacos, or adding a protein boost to your favorite dish,” said Executive Chef Marina Mitchell. “Less time in the kitchen, more flavor on the table.”

#### Sustainable, Affordable, and Versatile

Better meat should be better for the planet, too. Compared to traditional beef, Crossover Blends™ use 50% less land, 40% less water, and produce up to 50% fewer greenhouse gas emissions. At Food Lion, Crossover Blends™ are priced like ground meat—giving families an affordable way to eat smarter without sacrificing taste.
