

Auti Launches Globally on April 1, 2025: The AI-Powered Learning Marketplace Set to Revolutionize Education

FRISCO, TX, UNITED STATES, March 12, 2025 /EINPresswire.com/ -- Auti, a next-generation AI-powered learning marketplace, is set to launch globally on April 1, 2025. Founded by Dinakara Nagalla, Auti is redefining education by using AI to personalize learning, enhance teaching efficiency, and bridge the gap between learners and educators worldwide.

This marks the first in a series of AI-driven innovations from the Auti group, with multiple products on the horizon that will push the boundaries of AI-powered transformation across industries.

Bridging AI and Education: A New Era of Learning

The education sector is overdue for disruption. Traditional learning models are rigid, costly, and slow to adapt to evolving industry needs. Auti changes that—its AI-powered technology studies both teaching and learning patterns, providing:

- Real-time feedback to optimize learning efficiency
- Personalized AI-driven learning paths tailored to individual progress
- Standardized benchmarking for progress tracking and skill mastery

“Auti is not just another learning platform—it’s a movement to democratize education,” said Dinakara Nagalla, Founder and Chairman of Auti. “We are creating an ecosystem where AI helps

educators monetize their knowledge, enterprises scale intelligent workforce training, and learners gain unlimited access to the best expertise in the world.”

Nagalla, a serial entrepreneur, previously transformed the aviation industry with EmpowerMX, which redefined aircraft maintenance for major airlines before being acquired by IFS in 2024. Now, he is bringing his deep expertise in AI-driven transformation to education.

Key Features of Aauti: AI-Powered Learning, Built for Everyone

Aauti blends human intelligence with AI innovation, offering tools for educators, enterprises, and learners to create, teach, and scale their knowledge efficiently.

- **AI-Powered Course Creation:** Instructors use AI to streamline content development and deliver tailored, high-quality courses.
- **AI Digital Twins:** Lifelike AI-powered instructors with infinite knowledge provide real-time guidance.
- **Enterprise Training & Workforce Development:** Corporations can design AI-driven training programs at scale.
- **Intelligent Learning Insights:** AI analyzes performance data, offering real-time feedback and progress tracking.
- **Community & Collaboration Tools:** Learners and educators can engage in live discussions, mentorships, and group learning.
- **Seamless Payments & Scheduling:** Aauti provides built-in tools for effortless transactions between educators, learners, and businesses.

Aauti: The First of Many AI-Driven Innovations

Aauti is only the beginning. Nagalla and his team have a bold vision for AI-powered solutions, with several groundbreaking products launching soon.

“We are at the beginning of a revolution where AI is transforming not just education, but multiple industries,” Nagalla shared. “Aauti is just the first step—stay tuned for a wave of exciting AI-powered product launches in the coming months.”

In addition to his work in AI and technology, Nagalla is also preparing to launch his first book, *Becoming Human*, an exploration of personal growth, self-discovery, and the journey to living with greater awareness. This project is separate from his AI ventures, reflecting his broader perspective on human experiences and transformation.

About Aauti

Aauti is an AI-powered learning marketplace designed to empower educators, learners, and enterprises with cutting-edge AI-driven tools for personalized, scalable education. By combining live courses, gig-based lessons, and on-demand learning, Aauti is redefining how knowledge is created, shared, and monetized.
