Top Players:

3D Systems, Apex Machine Company Inc., Autoprint Machinery Manufacturers Pvt. Ltd., Canon Inc., Docod Precision Group Co. Ltd, Einbecker Kennzeichnungssysteme GmbH, Heidelberger Druckmaschinen AG, HP Development Company, LP, Koenig & Bauer AG, Komori Corporation, Laser Lines, Mark Andy, Manroland Goss, Printronix, Proto Labs, Inc., Weber packaging Solutions, Inc., Zhejiang Feida Machinery Co Ltd.

Driving Factors:

Rise in disposable income of consumers around the world and newspapers, magazines, books among other products of the global print media industry becoming more affordable are expected to boost the printing machinery market growth.

In addition, rising global population and urbanization are also causes behind the continued demand of print media in advertising applications worldwide. Printing machines are used widely in the advertising industry for printing of posters, flyers, billboards, flexes, among other applications. Print media and printing of labels also find application in various office and admin

use due to its high printing speed. These machines are used to print magazines, newspapers, books, labels and find application in office and admin use due to the high speed of printing.

However, replacement of conventional printers with digital printers is expected to limit the affordability options for customers, which in turn is expected to limit the growth of the market.
