

# Document Management Market Growth Expected to Reach \$34.2 Billion by 2032

*Rise in the adoption of cloud-based solutions in businesses, implementation of advanced DMS solutions in organizations*

WILMINGTON, NEW CASTLE, DE, UNITED STATES, March 13, 2025 /EINPresswire.com/ -- The global [document management market](#) was valued at \$7.1 billion in 2022, and is projected to reach \$34.2 billion by 2032, growing at a CAGR of 17.3% from 2023 to 2032. Rise in the adoption of cloud-based solutions in businesses, implementation of advanced DMS solutions in organizations, and increase in demand for remote and distributed workforces are expected to create numerous opportunities for the growth of the market. However, data privacy concerns and regulatory compliance hamper the growth of the market. Furthermore, surge in the adoption of big data management and data analyzing tools by enterprises, and the integration of robotic process automation (RPA) create opportunities for document management solutions to optimize business operations.
